2. That from and after the 15th day of April, 1859, no person shall practice medicine or surgery, or any of the branches thereof, or in any case prescribe for the cure of diseases for fee or reward, unless he or they shall have been first licensed so to do in the manner hereinafter described: *Provided*, that no person who shall practice in violation of this act shall be deemed guilty of a misdemeanor.

3. That in order to the proper regulation of the practice of medicine and surgery in the State of North Carolina, there shall be established a board of regularly graduated physicians, to be known by the name and title of "The Board of Medical Examiners of the State of North Carolina."

4. That the board of medical examiners of the State of North Carolina shall consist of seven regular graduated physicians.

5. That it shall be the duty of the said board to examine all applicants for license to practice medicine or surgery, or any of the branches thereof, in the State of North Carolina, on the following branches of medical science, viz: Anatomy, physiology, surgery, pathology, medical hygiene, chemistry, pharmacy, materia medica, therapeutics, and the practice of medicine; and if, on such examination, he or they may be found competent, to grant to such applicant or applicants a license or diploma, authorizing him or them to practice medicine or surgery, or any of the branches thereof, in the State of North Carolina: *Provided*, that five members of the board shall constitute a quorum, and that four of those present shall be agreed as to the qualifications of the applicant.

6. That the said board shall be at liberty to examine for and grant license to practice medicine or surgery, or any of the branches thereof, in this State, to any person so applying, who shall give satisfactory evidence to the board that he is twenty-one years of age and of a good moral character. Such applicants, if found competent, shall have granted to them the license before mentioned, signed by the board of medical examiners, or a majority thereof, and if found incompetent, they shall be rejected.

7. That to prevent delay and inconvenience, two members of the board of medical examiners may grant a temporary license to applicants therefor, and make report thereof to the next regular meeting of the board for confirmation: *Provided*, that such temporary license shall not continue in force longer than the next regular meeting of the board, and that such temporary license shall in no case be granted after the applicant has been refused a license by the board of medical examiners.

8. That it shall be the duty of the medical society of the State of North Carolina to furnish to the General Assembly of the State of North Carolina, by their secretary, a list of members of that society, from which list the General Assembly shall elect seven to constitute the board of medical examiners before mentioned, to continue in office for the term of six years from the date of their election: *Provided*, that whenever any member of this board shall cease to be a member of the medical society of the State of North Carolina, either by resignation or expulsion, his office of medical examiner shall be thereby vacated.

9. That the members of the State medical society shall have power to select the board of medical examiners, except when the legislature choose to exercise this right.

10. That the board of medical examiners shall assemble at the same times and places, when and where the aforesaid medical society assembles, which said society shall assemble at least once in each and every year, at such time and place as the said society, at its next preceding meeting, shall have fixed; and the said board shall remain in session from day to day until all applicants who may present themselves for examination within the first five days after its meeting shall have been examined and disposed of. [This section was adopted, as an amendment to the original act, April, 1871.]

11. That the board of medical examiners shall be, and they are hereby authorized to elect all such officers, and to frame all such by-laws as may be necessary to carry this law into effect; and in the event of any vacancy by death, resignation or otherwise, of any member of said board, the board or a quorum thereof, shall be, and they are hereby, empowered to fill all vacancies.

12. That the board of examiners shall keep a regular record of its proceedings, in a book kept for that purpose, which shall always be open for inspection; and shall cause to be entered on a book kept for that purpose the names of each applicant for license, and the name of each applicant licensed to practice medicine and surgery, and the time of granting the same, together with the names of the members of the board present, and shall publish the names of those licensed in two of the newspapers published in the city of Raleigh, within thirty days after the granting of the same.

13. That the said board shall have power to demand of each and every applicant thus licensed the sum of ten dollars, before issuing a license or diploma, and the sum of five dollars for each temporary license, to be paid to the secretary of the board.

14. That the members of the said board shall receive as a compensation for their services four dollars each day during the time of their session, and in addition thereto their traveling expenses to and from their places of meeting, by the most direct route from their respective places of residence, to be paid by the secretary of the board out of any moneys in his hands, upon the certificate of the president of the board of medical examiners. [This section was adopted, as an amendment to the original act, April, 1871.]

15. That any person who shall practice medicine or surgery in this State without having first applied for and obtained license from the said board of examiners as provided for by this act, shall not be entitled to sue for or recover before any magistrate or court in this State any medical bill for services rendered in the practice of medicine or surgery, or any of the branches thereof.

16. That the said board shall have the power to rescind any license granted by them, when upon satisfactory proof it shall appear that any physician thus licensed has been guilty of grossly immoral conduct.

17. That the secretary of the board of medical examiners shall give bond, with good security, to the president of the board for the safe keeping and proper payment of all moneys that may come into his hands under the provisions of this act.

18. That the provisions of this act shall not apply to any person or persons now engaged in the practice of medicine or surgery in this State, but shall be construed as applying to those only who may hereafter propose to commence the practice of the same in the State of North Carolina.

19. That this act shall be in force on and after the 15th day of April, 1859, and shall be considered a public act.

ADDENDA.

SECTION 3121. Medical Society of the State—a body politic—Private laws, 1858-9, C. 258, S. 1:

The association of regularly graduated physicians, calling themselves, "The State Medical Society," is hereby declared to be a body politic and corporate, to be known and distinguished by the name of "The Medical Society of the State of North Carolina."

SEC. 3122. Who may practice—1858-9, C. 258, S. 2:

No person shall practice medicine or surgery, nor any of the branches thereof, nor in any case prescribe for the cure of diseases for fee or reward, unless he shall have been first licensed so to do in the matter hereinafter provided.

SEC. 3123. Board of Physicians to consist of seven. 1858-9, C. 258, S. S. 3, 4:

In order to the proper regulation of the practice of medicine and surgery, there shall be established a board of regularly graduated physicians, to be known by the title of "The Board of Medical Examiners of the State of North Carolina," which shall consist of seven regularly graduated physicians.

SEC. 3124. Duty of Board. 1858-9, C. 258, S. 5:

It shall be the duty of the said Board to examine all applicants for license to practice medicine or surgery, or any of the branches thereof, on the following branches of medical science: Anatomy, Physiology, Surgery, Pathology, Medical Hygiene, Chemistry, Pharmacy, Materia Medica, Therapeutics, Obstetrics, and the practice of medicine; and if on such examination they be found competent, to grant to each applicant a license or diploma, authorizing him to practice medicine and surgery, or any of the branches thereof: *Provided*, five members of the Board shall constitute a quorum and four of those present shall be agreed as to the qualifications of the applicant.

SEC. 3125. Temporary License. 1858-9, C. 258, S. 7:

To prevent delay and inconvenience, two members of the Board of Medical Examiners may grant a temporary license to any applicant and make a report thereof to the next regular meeting of the Board: *Provided*, such temporary license shall not continue in force longer than the next regular meeting of the Board, and such temporary license shall in no case be granted after the applicant has been refused a license by the Board of Medical Examiners.

SEC. 3126. How Appointed. 1858-9, C. 258, S. 9:

The Medical Society shall have power to appoint the Board of Medical Examiners.

SEC. 3127. Where and When to Assemble. 1870-1, C. —, S. 11:

The Board of Medical Examiners shall assemble at the same times and places when and where the Medical Society assembles, which society shall assemble at least once in every year at such time and place as the said society, at its next preceding meeting, shall have fixed; and the said Board shall remain in session from day to day until all applicants who may present themselves for examination within the first five days after its meeting shall have been examined and disposed of.

SEC. 3128. Officers, etc. 1858-9, C. 258, S. 11.

The Board of Medical Examiners are authorized to elect all such officers and to frame all such by-laws as may be necessary, and in the event of any vacancy by death, resignation or otherwise, of any member of said Board, the Board, or a quorum thereof, is empowered to fill such vacancy.

SEC. 3129. The Board of Examiners to Keep a Record. 1858-9, C. 258, S. 12.

The Board of Examiners shall keep a regular record of its proceedings in a book kept for that purpose, which shall always be open for inspection, and shall cause to be entered on a book kept for the purpose the name of each applicant for license, and the name of each applicant licensed to practice medicine and surgery, and the time of granting the same, together with the names of the members of the Board present, and shall publish the names of those licensed in two of the newspapers published in the city of Raleigh, within thirty days after the granting of the same.

SEC. 3130. License. 1858-9, C. 258, S. 13.

The Board shall have power to demand of every applicant thus licensed the sum of ten dollars before issuing a license or diploma, and the sum of five dollars for each temporary license, to be paid to the Secretary of the Board.

SEC. 3131. The Board; Their Compensation. 1870-1, C. — S. 14.

The members of the said Board shall each receive as a compensation for their services four dollars per day during the time of their session, and in addition thereto, their traveling expenses to and from their places of meeting by the most direct route from their respective places of residence, to be paid by the Secretary of the Board out of any moneys in his hands, upon the certificate of the President of the Board of Medical Examiners.

SEC. 3132. Practicing Without License. 1858-9, C. 258, S. 15; 1885, C. 117 AND 261.

Any person who shall practice medicine or surgery without having first applied for and obtained license from the said Board of Examiners, shall not be entitled to sue for or recover before any court any medical bill for services rendered in the practice of medicine or surgery or any of the branches thereof. And any person who shall begin the practice of medicine or surgery in this State for fee or reward, after the passage of this act (March 7th, 1885), without first having obtained license from said Board of Examiners, shall not only not be entitled to sue for or recover before any court any medical bill for services rendered in the practice of medicine or surgery, or any of the branches thereof, but shall also be guilty of a misdemeanor, and upon conviction thereof shall be fined not less than twenty-five dollars nor more than one hundred dollars, or imprisoned at the discretion of the court, for each and every offence: *Provided*, that this act shall not be construed to apply to women who pursue the vocation of a midwife: *And provided further*, that this act shall not apply to any reputable physician or surgeon resident in a neighboring State coming into this State for consultation with a registered physician resident therein. But this proviso shall not apply to physicians resident in a neighboring State regularly practicing in this State: *Provided* that this section shall not apply to physicians who have a diploma from a regular medical college, and were practicing medicine or surgery in this State prior to the seventh day of March, one thousand eight hundred and eighty-five.

3133. May Rescind License—1858-9, C. 258, S. 16:

The said Board shall have the power to rescind any license granted by them when, upon satisfactory proof, it shall appear that any physician thus licensed has been guilty of grossly immoral conduct.

3134. Secretary—1858-9, C. 258, S. 17:

The Secretary of the Board of Medical Examiners shall give bond, with good security, to the President of the Board, for the safe keeping and proper payment of all moneys that may come into his hands.

Registration—1889, C. 181, SS. 3 (in part), 4, 5, 6, 7:

3. * * * All persons who are now practicing medicine or surgery in this State shall, before the first day of January, one thousand eight hundred and ninety, personally appear before the Clerk of the Superior Court of the county where any such person resides or practices, for registration, as herein provided; and any person who shall begin the practice of medicine or surgery in this State after the passage of this act shall likewise personally appear before the clerk of the Superior Court of the county in which he resides or practices within thirty days after obtaining a license from the Board of Medical Examiners of the State, as now provided by law for such registration.

4. That any person applying for registration as herein provided shall produce and exhibit before the clerk of the Superior Court a license obtained from the Board of Medical Examiners aforesaid, or a diploma issued by a regular medical college prior to the seventh of March, 1885, or make oath that he was practicing medicine or surgery in this State prior to said seventh of March 1885; and upon such exhibit or oath being made as aforesaid, the clerk

shall register the date of registration with the name and residence of such applicant in a book to be kept for this purpose in his office marked "Register of Physicians and Surgeons," and shall issue to him a certificate of such registration under the seal of the Superior Court of the county upon the form furnished him as hereinafter provided, for which the Clerk shall be entitled to collect for said applicant a fee of twenty-five cents. The person obtaining said certificate shall be entitled to practice medicine or surgery, or both, in the county where the same was obtained, and in any other county in this State; but if he shall remove his residence to another county he shall exhibit said certificate to the Clerk of such other county and be registered, which registration shall be made by said Clerk without fee or charge: *Provided*, that any one having obtained a temporary license, as provided in section three thousand one hundred and twenty-five of The Code, shall not be entitled to register, but may practice during the time such license shall remain in force.

5. That any person who shall practice or attempt to practice medicine or surgery in this State, without first having registered and obtained the certificate as aforesaid, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not less than twenty-five dollars, nor more than one hundred dollars, or be imprisoned, at the discretion of the court, for each and every offense: *Provided*, this act shall not apply to women pursuing the vocation of midwife, nor to reputable physicians or surgeons resident in a neighboring State coming into the State for consultation with a registered physician of this State.

6. That any clerk of the Superior Court who shall register or issue a certificate to any person in any other manner than that prescribed by this act shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined not less than two hundred dollars and shall be removed from office.

7. That it shall be the duty of the Medical Society of the State of North Carolina to prescribe a proper form of certificate required by this act, and on or before the first day of July, one thousand eight hundred and eighty-nine, to furnish the clerk of the Superior Court of each county in the State blank forms thereof, and also one or more copies of this act; and it shall be the duty of said clerk, immediately upon receipt of this act, to post a copy thereof in some conspicuous place in the court house of the county. Said society shall likewise furnish every physician in the State, whose address can be obtained, a copy of this act on or before said first day of July, one thousand eight hundred and eighty-nine.

SALIX NIGRA.

This remedy has been used with much success as a sexual sedative in the treatment of masturbation, excessive venery, spermatorrhœa and ovarian disease. As a sexual sedative the fluid extract of the buds is considered the most efficient. Dose, $\frac{1}{4}$ to 1 fluidrachm, not miscible with water. As a general tonic and antiperiodic the fluid extract of the bark is employed with advantage. Parke, Davis & Co., Detroit, Mich., make both these extracts and will mail to the medical profession on demand working bulletin giving botanical description, medicinal activity, use and notes of cases.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

Drs. McLeish & Weber's Sanitarium for the Treatment of Cancer

And Other Abnormal Growths.

We announce to the medical profession that after fifteen years of practical experience in the treatment of Cancer and other neoplasms by topical applications, we have no hesitancy in asserting their efficiency over that of the knife. Wherever our method and system have come under the observation of the profession, it has received their approval and endorsement. We arrogate to ourselves only such superiority in the treatment of this particular branch of medical science as we have been privileged to derive from long experience.

Our building accommodates about thirty patients, who receive daily personal attention at our hands. For further information, address

The State of Ohio comprises an area of 39,964 square miles or 25,576,960 acres, and extends from 38° 25' to 42° north latitude, and from 80° 28' to 84° 42' west longitude. It is bounded on the north by Michigan and Lake Erie, on the south and southeast by the Ohio river, which separates it from Kentucky and West Vinia, on the east by Pennsylvania, and on the west by Indiana. The surface is a high tableland, broken by ridges and ravines cut into the soft alluvial soil by the many streams which drain the State. The principal rivers are the Ohio, the Mahoning, the Muskingum, the Scioto, Maumee, Sandusky, Huron, Vermillion, Black, etc. The climate is mild and salubrious, the mean annual temperature varying from 49.99° at Cleveland to 54.72° at Cincinnati. The average annual rainfall is about 41 inches, being the greatest along the Valley of the Ohio. The mneral wealth of the State consists chiefly in its vast fields of bituminous coal, and its almost inexhaustible deposits of iron ore. Salt is mined extensively, and petroleum is obtained in the southeastern counties.

The soil is fertile and productive, and wheat, Indian corn and oats form the agricultural staples. The great dairy farms are found in the northeastern coun- ties, while in the southeast wool growing is the principal industry. Fruit flourishes on the southern shore of Lake Erie.

The following table shows the increase in population during 60 years :

1820.....	581,295	1860.....	2,339,511
1830.....	937,903	1870.....	2,665,260
1840.....	1,519,467	1880....	3,198,062
1850.....	1,980,329		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 20,699; capital invested, \$188,939,614 ; number of hands employed, 183,609 ; total wages paid during the year, \$62,103,800 ; value of materials, \$215,098,026 ; value of products, \$348,305,390.

The religious and educational facilities are of a very high order and leave nothing to be desired.

There are several well-known medicinal springs in the State, one of the most famous of these being the Ripley Bromo-Lithia Spring, at Ripley.

The medical colleges of Ohio are: Medical College of Ohio (Medical Depart- ment, University of Cincinnati), Cincinnati; Western Reserve University Medi- cal Department (Cleveland Medical College, Medical Department of Adelbert

MEDICAL LAWS OF OHIO.

EXTRACTS, PERTAINING TO THE PRACTICE OF MEDICINE IN OHIO, FROM THE REVISED STATUTES OF OHIO, 1880—CHAPTER XV.

4403. No one who has not attended two full courses of instruction of at least twelve weeks each, and graduated at a school of medicine, either in the United States or a foreign country, or who cannot produce a certificate of qualification from a State or county medical society, and is a person of good moral character, shall practice, or attempt to practice, medicine in any of its departments, or prescribe medicine for reward or compensation, for any person within this State, except that when a person has been continuously engaged in the practice of medicine for a period of ten years or more, he shall be considered to have complied with the provisions of this chapter; and when a person has been in the continuous practice of medicine for five years or more, he shall be allowed two years in which to comply therewith: *Provided*, however, that any person who shall have graduated at any school of medicine in any State or foreign country in which any condition or restriction is imposed by the laws thereof upon the practice of medicine by the graduates of medical schools in Ohio, shall be subject to the same restrictions or conditions in the practice of medicine in this State as are imposed upon such graduates of medical schools of Ohio by the laws of such State or foreign country; and a person violating this section shall not be entitled to any compensation for services rendered.

6396. In counties containing cities of the first class having a population of one hundred and fifty thousand and over, it shall be the duty of physicians and professional midwives to keep a registry of the several births in which they have assisted professionally, which shall contain, as nearly as the same can be ascertained, the time of such birth, sex, color of the child, the names and residences of the parents; and physicians who have attended deceased persons in their last illness, clergymen who have officiated at the funeral and sextons who have buried deceased persons, shall keep a registry of the name, age and residence of such deceased persons at the time of their death. It shall be the duty of the physicians and professional midwives to report fully the births registered by them, as required by this chapter, to the judge of the probate court of the county every three months, viz: on or before the second Monday of the months of January, April, July and October of each year; in case there is no physician or midwife in attendance at any birth, then the parents shall be required to report to the probate judge within one month; and physicians, clergymen and sextons shall likewise report fully the deaths registered by them, as required by this chapter, to the judge of the probate court of the county every three months as above designated; and any person who shall neglect or refuse to comply with or violate the provisions of this chapter, shall forfeit and pay for each offense the sum of ten dollars, to be sued for and recovered in the name of the State of Ohio, and the penalty when recovered, shall be paid over, one-half to the school fund and one-half to the party making complaint thereof.

6813. Whoever, while in a state of intoxication, prescribes or administers any poison, drug or medicine to another, which endangers the life of such other person, shall be fined not exceeding one hundred dollars, and imprisoned not more than twenty days.

6815. Whoever prescribes any drug or medicine to another, the true nature and composition of which he does not, if inquired of, truly make known, but avows the same a secret medicine or composition, and thereby endangers the life of such other person, shall be fined not exceeding one hundred dollars, and imprisoned not more than twenty days.

6990. Whoever uses upon another an anæsthetic, unless at its administration and during the whole time the person is wholly or partly under the direct influence of it, there is present a third person competent to be a witness, shall be fined not more than twenty-five nor less than five dollars.

6992. Whoever prescribes, or practices or attempts to practice, medicine in any of its departments, or performs or attempts to perform a surgical operation, without having attended two full courses of instruction, and graduated at a school of medicine, either in this or a foreign country, or who cannot produce a certificate of qualification from a State or county medical society, shall, for the first offense, be fined not more than one hundred dollars, nor less than fifty dollars, and for each subsequent offense be imprisoned for the term of thirty days.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation and the last number the year in which diploma was granted.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

OREGON.

CAPITAL, SALEM.

POPULATION OF STATE, 174,768.

(Census of 1880.)

Males	103,381	Native.....	144,265
Females	71,387	Foreign.....	30,503
White.	163,075	Chinese.....	9,512
Colored.....	487	Indians.....	1,694

The State of Oregon extends from 42° to 46° 18' north latitude, and from 116° 40' to 124° 25' west longitude, and is bounded on the north by Washington Territory, from which it is partly separated by the Columbia River, on the south by California and Nevada, on the east by Idaho, and on the west by the Pacific Ocean. It comprises an area of 95,274 square miles, or 60,975,360 acres, and is divided unequally by the Cascade Mountains. East of them the surface is an undulating tableland diversified with cone-shaped hills and deep canons. Between the Cascade and coast ranges is the fertile valley of the Willamette, 140 miles in length and about 40 in width ; and from the coast range west the surface is hilly and mountainous. This last named section is adapted to stock raising and wool growing, and winter wheat, hay and oats thrive here. All cereals flourish luxuriantly in the Willamette valley, and the eastern portion is the great stock raising section of Oregon.

The principal rivers are the Columbia, the Snake, the Willamette, the Umpqua, the Rogue and the Klamath.

The climate is mild, equable and salubrious, the mean annual temperature ranging from 44° near the Cascade mountains to 50° in the vicinity of the ocean. The average annual rainfall increases from 44 inches in the mountains to 60 near

the sea coast. Dense forests of coniferous trees cover the valleys and hill slopes, and there is no lack of the different varieties of deciduous trees common to the Pacific coast. Gold, silver, coal, iron and copper are all found in paying quantities, and constitute the mineral wealth of Oregon.

The following table shows increase in population from 1850 to 1880 :

1850...	13,294	1870.....	90,923
1860.....	52,465	1880.....	174,768

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 1,075 ; capital invested, \$6,284,256 ; number of hands employed, 3,424; total wages paid during the year, \$1,636,566; value of material, \$6,933,336; value of products, \$10,879,982.

There are a number of mineral springs in Oregon.

There are two medical colleges in the State, the Medical Department Willamette University, Portland, and the University of the State of Oregon, medical department, Portland.

Rate of Mortality in Oregon, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
174,768	1,864	10 67	1,792	72	10.75	6.15

Total number of deaths from consumption during 1880 was 226, which was at the rate of 1.30 per 1,000 of population, or 121.24 per 1,000 of total deaths.

BURN-BRAE

A Private Hospital for Mental and Nervous Diseases.

Founded by the late Robert A. Given, M. D., 1859.

Clifton Heights, Delaware Co., Pa.

This Institution is located a few miles West of the City of Philadelphia, and is designed to accommodate a limited number of patients of each sex.

Burn-Brae has been in operation for more than a quarter of a century, and now numbers its friends in all sections of the Union. No better proof of the confidence reposed in its management by the profession and the community at large could be given, than the extensive improvements and additions that have been made during the last few years—not for the purpose of adding to the number of patients already provided for, but in order to increase the size of the old dormitories, and of erecting conservatories in the ladies' apartments.

The grounds, originally twenty-five acres in extent, have been increased to fifty-eight acres, thus, besides securing to the inmates perfect privacy, affording them in their walks the pleasing variety of hill and valley, meadow, brook and woodland.

The fact is now fully recognized by Psychological Physicians, that the less we treat the insane as exceptional beings, by immuring them in large hospitals, under strict discipline and modes of life widely different from the social amenities of home, the more likely is recovery to take place. Hence the advantage of small establishments where the arrangements are homelike and familiar.

It is the desire of the management of Burn-Brae to make it in every respect a home for their guests. The location is beautiful and salubrious; the house, though possessing all the safeguards and appliances of a public hospital in external appearances and internal arrangements, presents nothing to unfavorably impress the inmates.

The agreeable and soothing influence of music; the in-door games of chess, billiards, backgammon, ten-pins, shuffle-board; the open-air amusements of croquet, lawn-tennis, cricket, football and boating, are provided for and daily resorted to by patients.

A lady, well educated and of exceptionable manners and deportment, resides in the same apartments and devotes her time to the lady patients, thus securing them on all occasions a pleasant companion and a watchful friend.

A limited number of cases of the Opium habit can be admitted.

Access from Philadelphia by the Baltimore Pike, or take cars for Primos Station, on Central Division of P., W. & B. R. R., Depot Broad and Filbert Streets, Philadelphia.

ST. JOSEPH'S HOSPITAL

A RETREAT FOR THE SICK AND THE SUFFERING.

Girard Ave., bet. Sixteenth and Seventeenth Sts., - - - PHILADELPHIA, PA.

UNDER THE CARE OF THE

.....SISTERS OF CHARITY.....

This institution was established in 1849. It is supported by pay from patients and by voluntary contributions. It is divided into medical and surgical wards, of which there are six. In addition to the wards there are many handsomely furnished private rooms of which persons who desire extra accommodation can avail themselves. The occupants of these rooms have the privilege of selecting their own physician. Patients of all creeds and climes, except those suffering from contagious diseases, are admitted. The usual charge for admittance into the wards is \$5.00 per week, but, as a rule, about one-third of the cases in the wards are gratuitous patients. Application for admission may be made at the hospital or to the medical or surgical officers on duty. Recent accident cases are admitted at once into the wards free of charge.

The second State in the Union, as regards wealth and population, was one of the original 13, and extends from 39° 43' to 42° 15' north latitude, and from 74° 40' to 80° 41' west longitude. It comprises an area of 46,000 square miles or 29,440,000 acres, and is bounded on the North by Lake Erie and the State of New York ; on the South by Delaware, Maryland and West Virginia ; on the East by New York and New Jersey, and on the West by Ohio and West Virginia. The surface is varied, being rolling and broken in the West, hilly and mountainous in the interior, and generally level or slightly undulating in the Southeast. Several

ranges traverse the State from northeast to southwest. The principal rivers of Pennsylvania are the Ohio river, which is formed at Pittsburgh by the confluence of the Allegheny and Monongahela rivers; the Susquehanna river, which drains a large area; the Delaware river, the Juniata river, the Lehigh, Schuylkill and Brandywine rivers, besides which, innumerable streams and creeks irrigate and drain the entire State. The climate varies with the elevation; the higher portions are cool in summer, and the winters in these regions are very severe, while the lower portions have very warm summers and milder winters. The mean annual temperature ranges from 44° in the northern counties to 52° in the southeast, and the rainfall varies in like manner from 38 inches to 45 inches, and even more in the southeast corner. Vast forests of coniferous and deciduous trees cover nearly one-fourth of the entire area, and the vegetation generally is rich and varied. The mineral wealth of Pennsylvania consists chiefly of its iron and coal mines, but petroleum, salt, marble, limestone, granite, graphite, nickel and chromium are found in large and paying quantities. It is pre-eminently an agricultural State, and wheat, corn, oats, tobacco and potatoes are the staples; dairy farming is also an important industry.

The following table shows increase in population during 60 years :

MEDICAL LAWS OF PENNSYLVANIA.

During the session of 1880-81, an excellent bill was introduced—mainly through the instrumentality of Dr. T. B. Reed, of Philadelphia—into the Pennsylvania Legislature, providing for the creation of a State Board of Health, and the regulation of the practice of medicine through such board. Unexpected hostility to the measure was developed, resulting in its defeat, and the following act was subsequently passed:

AN ACT TO PROVIDE FOR THE REGISTRATION OF ALL PRACTITIONERS OF MEDICINE AND SURGERY.

Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met:

SECTION 1, etc. That the prothonotary of each county shall purchase a book of suitable size, to be known as the medical register of the county (if such book has not been purchased already), and shall set apart one full page for the registration of each practitioner; and when any practitioner shall depart this life, or remove from the county, he shall make a note of the same at the bottom of the page, and shall perform such other duties as are required by this act.

2. Every person who shall practice medicine or surgery, or any of the branches of medicine or surgery for gain, or shall receive or accept for his or her services as a practitioner of medicine or surgery, any fee or reward, directly or indirectly, shall be a graduate of a legally char-

tered medical college or university having authority to confer the degree of Doctor of Medicine (except as provided for in section five of this act); and such persons shall present to the prothonotary of the county in which he or she resides or sojourns, his or her medical diploma, as well as a true copy of the same, including any endorsements thereon, and shall make affidavit before him that the diploma and endorsements are genuine; thereupon, the prothonotary shall enter the following in the register, to wit: the name in full of the practitioner, his or her nativity, his or her place of residence, the name of the college or university that has conferred the degree of Doctor of Medicine, the year when such degree was conferred, and in like manner any other degree or degrees that the practitioner may desire to place on record; to all of which the practitioner shall make affidavit before the prothonotary, and the prothonotary shall place the copy of such diploma, including the endorsements, on file in his office for inspection by the public.

3. Any person whose medical diploma has been destroyed or lost, shall present to the prothonotary of the county in which he or she resides or sojourns, a duly certified copy of his or her diploma; but if the same is not obtainable, a statement of this fact, together with the names of the professors whose lectures he or she attended; and the branches of study upon which each professor lectured, to all of which the practitioner shall make affidavit before the prothonotary, after which the practitioner shall be allowed to register in manner and form as indicated in section two of this act, and the prothonotary shall place such certified statement on file in his office for inspection by the public.

4. Any person who may desire to commence the practice of medicine or surgery in this State after the passage of this act, having a medical diploma issued or purporting to have been issued by any college, university, society or association in another State or foreign country, shall lay the same before the faculty of one of the medical colleges or universities of this Commonwealth for inspection; and the faculty, being satisfied as to the qualifications of the applicant and the genuineness of the diploma, shall direct the dean of the faculty to endorse the same, after which such person shall be allowed to register as required by section two of this act.

5. Any person who has been in the continuous practice of medicine or surgery in this Commonwealth since one thousand eight hundred and seventy-one without the degree of Doctor of Medicine, shall be allowed to continue such practice, but such person shall nevertheless appear before the prothonotary of the county in which he or she resides, and shall present to him a written statement of these facts, to which the practitioner shall make affidavit. Thereupon, the prothonotary shall enter the following in the register, to-wit: the name in full of the practitioner, his or her place of nativity, his or her place of residence, the time of continuous practice in this Commonwealth, and the place or places where such practice was pursued, to all of which the practitioner shall likewise make affidavit, and the prothonotary shall place the certified statement on file in his office for inspection by the public.

6. Every practitioner who shall be admitted to registration shall pay to the prothonotary one dollar, which shall be compensation in full for registration, and the prothonotary shall give a receipt for the same.

7. Any practitioner who shall present to the faculty of an institution an endorsement, or to a prothonotary a diploma which has been obtained fraudulently, or is in whole or in part a forgery, or shall make affidavit to any false statement to be filed or registered, or shall practice medicine or surgery without conforming to the requirements of this act, or shall otherwise violate or neglect to comply with any of the provisions of this act, shall be deemed guilty of a misdemeanor, and on conviction shall be punished for each and every offense by a fine of one hundred dollars, one-half to be paid to the prosecutor, and the other half to be paid to the county, or be imprisoned in the county jail of the proper county, for a term not exceeding one year, or both, or either, at the discretion of the court.

8. Nothing in this act shall be so construed as to prevent any physician or surgeon legally qualified to practice medicine or surgery in the State in which he or she resides, from practicing in this Commonwealth; but any person or persons opening an office, or appointing any place where he or she may meet patients or receive calls, shall be deemed a sojourner, and shall conform to the requirements to this act.

9. This act shall take effect on the first day of June, one thousand eight hundred and eighty-one.

10. That all acts or parts of acts heretofore passed, and inconsistent with this act, be and the same are hereby repealed.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

RHODE ISLAND.

CAPITAL, NEWPORT.

POPULATION OF STATE, 304,284.

(Census of 1885.)

POPULATION, 1880, 276,531. Increase, per cent., 10.03.

Males.....	133,030	Native.....	202,53
Females.....	143,501	Foreign.....	73,99
White.....	269,939	Chinese.....	2
Colored.....	6,488	Indians.....	7

The State of Rhode Island extends from 41° 18' to 42° 5' north latitude, and from 71° 8' to 71° 53' west longitude, and is bounded on the north and east by Massachusetts, on the south by the Atlantic ocean, and on the west by Connecticut. It is the smallest State in the Union, comprising an area of 1,306 square miles or 835,840 acres. The surface is generally rough and hilly, but there are no mountain ranges and but few hills of any eminence.

The principal rivers are the Pawtucket, the Pawcatuck and Pawtuxet, all of which furnish excellent water power.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on page 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted

Nearly one-fourth of the State is woodland. The soil is moderately fertile, but many parts are too rough for cultivation, and the cereal crop is merely nominal.

The climate, like that of all the New England States, is marked by great extremes, the winters being very cold and the summers correspondingly hot. The mean annual temperature at Providence is 47.91, and at Newport 49.39, and the average annual rainfall varies from 40 inches in the eastern part to 44 in the west

Coal, iron ore, serpentine, limestone, sandstone and marble constitute the mineral wealth of Rhode Island.

The following table shows increase in population during 65 years :

1820.....	83,015	1860.....	174,620
1830.....	97,190	1870.....	217,353
1840.....	108,830	1880.....	276,531
1850.....	147,545	1885.....	304,284

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 2,205; capital invested \$75,575,943; number of hands employed, 62,878; total wages paid during the year, \$21,355,619; value of materials, \$58,103,443; value of products, \$104,163,621.

There are no medicinal springs in the State.

Rate of Mortality in Rhode Island as computed from the U. S. Census of 1880.

276,531	4,702	17.00	4,523	179	16.75	27.15

The total number of deaths from consumption during 1880 was 691, which was at the rate of 2.50 per 1,000 of population, or 146.95 per 1,000 of total deaths.

MEDICAL LAWS OF RHODE ISLAND.

Section 12 of chapter 85, Public Statutes of Rhode Island, 1882, having reference to the registration of births, deaths and marriages, provides that every clergyman, physician, coroner, undertaker, medical examiner, or clerk of any meeting of the Society of Friends, shall cause his name, residence and postoffice address to be recorded in the town clerk's office of the town where he resides. By another section of the same chapter he is required to report, with compensation, all still births and deaths in his attendance.

The physician is exempt from jury and military duty.

Colored.....	604,332	Indians.....	131

South Carolina, one of the 13 original States, is bounded on the north by North Carolina, on the southwest by the Savannah river, which separates it from Georgia, and on the southeast by the Atlantic. It extends from 32° to 35° north latitude, and from 78° 35' to 83° 30' west longitude, is triangular in shape and comprises an area of 34,000 square miles, or 21,760,000 acres. The northwestern portion is mountainous; the southeastern low and swampy, and the intervening country is rolling and undulating. The principal rivers of the State are the Santee river, formed by the confluence of the Wateree and Congaree rivers; the Waccamaw river, Cooper river, Ashley river, Savannah river, etc., etc.

1030 South Carolina. MEDICAL AND SURGICAL South Carolina.

The climate is warm, but is tempered in the east by the vicinity of the ocean and in the west by the elevation. The mean annual temperature ranges from 60° in the north to 67° in the south, and the average annual rainfall is about 45 inches. Vegetation is luxuriant; many of the tropical plants and shrubs flourish in the lower portions of the State and dense pine forests cover vast areas in central South Carolina. Mineral resources of the State are as yet only partially developed and consist of gold, iron ore, copper, lead, manganese and bismuth. Extraordinary crops of cereals and fruits are produced in the irriguous valleys and swamp lands.

The following table shows increase in population during 60 years:

1820.....	502,741	1860	703,700
1830.....	581,185	1870.....	705,600
1840.....	594,398	1880.....	995,577
1850.....	668,507		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 2,078; capital invested, \$11,205,894; number of hands employed, 22,128; total wages paid during the year, \$2,836,289; value of material, \$9,885,538; value of products, \$16,738,008.

There are several mineral springs in the State.

There is one medical college in the State, the Medical College of the State of South Carolina, at Charleston.

Rate of Mortality in South Carolina, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.

MEDICAL LAWS OF SOUTH CAROLINA.

AN ACT TO REGULATE THE LICENSING OF PHYSICIANS AND SURGEONS.

SECTION 919, SUBDIVISION 1. Be it enacted by the Senate and House of Representatives of the State of South Carolina, now met and sitting in General Assembly, and by the authority of the same: A person shall not practice physic or surgery for compensation within the State unless he is twenty-one years of age, and either has been heretofore authorized so to do, pursuant to the laws in force at the time of his authorization, or is hereafter authorized to do so by subsequent sections of this act.

2. From and after the first day of June, 1882, every person now duly authorized to practice physic and surgery within this State, and every person hereafter duly authorized to practice physic and surgery, shall, before commencing to practice, register in the office of the clerk of the court of the county where he is practicing or intends to commence the practice of physic and surgery, in a book to be kept by said clerk, his name, residence, and place of birth, together with his authority for so practicing physic and surgery, as prescribed in this act. The person so registering shall subscribe, and verify by oath or affirmation, before a person duly qualified to administer oaths under the laws of State, an affidavit containing such facts, and whether such authority is by diploma or license, and the date of the same and by whom granted, which, if wilfully false, shall subject the affiant to conviction and punishment for perjury. The said clerk of the court to receive a fee of twenty-five (25) cents for such registration, to be paid by the person so registering. *Provided*, that any registration made in conformity to the provisions of the act herein amended are hereby confirmed and made valid. [This section, an amendment to the original act, was approved July 5, 1882.]

3. A person who violates either of the two preceding sections of this act, or who shall practice physic or surgery under cover of a diploma illegally obtained, is guilty of a misdemeanor, punishable by fine not less than (\$50) fifty dollars nor more than (\$200) two hundred dollars for the first offense, and each subsequent offense by a fine not less than (\$100) one hundred dollars, or by imprisonment for not less than (30) thirty days nor more than (90) ninety days, or both. The fine, when collected, shall be paid, the one-half to the person or corporation making the complaint, the other half into the county treasury.

4. A person coming to the State may be licensed to practice physic or surgery, or either, within the State in the following manner: If he has a diploma conferring upon him the degree of Doctor of Medicine, issued by an incorporated university, medical college or medical school without the State, he shall exhibit the same to the faculty of some incorporated medical college, or the medical board of the State, with satisfactory evidence of his good moral character, and such other evidence, if any, of his qualifications as a physician and surgeon as said medical college or medical board may require. If his diploma and qualifications are approved by them, then they shall indorse said diploma, which shall make it, for the purpose of his license to practice medicine and surgery within the State, the same as if issued by them. The indorsed diploma shall authorize him to practice physic and surgery within the State, upon his complying with the provisions of section two (2) of this act.

5. The medical board referred to in the previous section shall be composed of the physician and surgeons constituting the local boards of health in various counties of the State—the local board of health for each county having jurisdiction over all matters contrary to this act, occurring within its borders.

6. The degree of Doctor of Medicine lawfully conferred by any medical college or university in this State shall be a license to practice physic and surgery within the State, after the person to whom it is granted shall have complied with section two (2) of this act.

7. Nothing in this act shall apply to commissioned medical officers of the United States army or navy, or the United States marine hospital service.

8. All acts or parts of acts inconsistent with this act are hereby repealed.

Approved December 17, 1881.

SECTION 920 of the General Statutes provides as follows: In no case wherein the provisions of this chapter shall have been violated shall any person so violating receive a compensation for services rendered: *Provided*, That nothing herein contained shall in any way be construed to apply to any person practicing dentistry, or to females practicing midwifery.

AN ACT TO AMEND SUBDIVISIONS 4 AND 5 OF SECTION 919 OF THE GENERAL STATUTES RELATING TO PHYSICIANS, AND TO REPEAL SUBDIVISION 6 OF SAID SECTION.

SECTION 1. Be it enacted by the Senate and House of Representatives of the State of South Carolina, now met and sitting in general assembly, and by the authority of the same :

That subdivision 4, of Section 919 of the General Statutes relating to physicians, as amended by an act, entitled An Act to Amend Subdivisions 2, 4 and 5 of Section 919 of the General Statutes relating to Physicians, Approved December 24th, 1887, be and the same is hereby stricken out, and the following inserted in lieu thereof, to be known as Subdivision 4, of Section 919, of the General Statutes.

SUBDIVISION 4. The said Board of Examiners shall have power to examine in all branches of medicine and surgery, as they may determine, every applicant for license to practice medicine and surgery in the State on presentation to the chairman of said Board by said applicant of a diploma granted to said applicant by a chartered medical college or school. *Provided*, that said examination may be dispensed within the discretion of the Board, upon inspection of the applicant's diploma. Should such examination or inspection be satisfactory to said Board they shall issue to said applicant a license to register as provided for above. *Provided*, that the fee for such examination or inspection shall be five dollars.

2. That sub-division 5 of said section be and the same is hereby amended so as to read as follows: Sub-division 5, the State Board of Medical Examiners, referred to in the previous subdivision of this section, shall be composed of five regular practicing physicians or surgeons in this State in good standing and shall be appointed by the Governor, and shall serve for two years after date of appointment or until their successors are appointed. They shall meet semi-annually in the City of Columbia on the first Tuesday in April and the third Tuesday of August of each year and shall continue in session as long as may be necessary to transact all business that may be brought them, and they may have special meetings at other times if an applicant shall request same and pay the expenses of such special meetings. A majority vote of said board shall control. Each member of said board shall receive five dollars per diem and five cents per mile each way of necessary travel while actually attending a session. *Provided*, the funds received by their chairman or secretary and treasurer from applicants for examination or inspection of diploma, shall be sufficient to pay said per diem and mileage. A majority of said board shall constitute a quorum for the transaction of all business, and a member of said board shall be elected by themselves to serve as secretary and treasurer, who shall pay to the State Board of Health any balance left in his hands at the expiration of his term of office, said balance to be accounted for by them in their annual report to the legislature.

3. That subdivision 6 of Section 919 of the General Statutes be and the same is hereby repealed.

4. That all acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

Approved, 24th December, 1888.

ADDENDA.

Other requirements are:

1. Before practice physicians have to register in the clerk's office of each county before beginning to practice.
2. They cannot register without a license from the State Board of Medical examiners.
3. Penalty, \$200 fine and 6 months to 2 years imprisonment, upon conviction.

The State of Tennessee extends from 35° to 36° 41' north latitude, and from 81° 45' to 90° 14' west longitude, and is bounded on the north by Kentucky and Virginia, on the south by Georgia, Alabama and Mississippi, on the east by North Carolina, and on the west by Arkansas and Missouri. It comprises an area of 45,600 square miles, or 29,184,000 acres. The surface is diversified by mountain ranges, table lands, valleys and low plains. The low lands are covered by vast forests, and the table lands and valleys are exceedingly fertile and yield immense crops of corn, cotton, grain and tobacco. The principal rivers of the State are the Obion, Forked Deer, Hatchee and Loosahatchee in the north, the Cumberland, Tennessee, Holston, Sequatchee, etc. The climate is mild, equable and salubrious, the mean annual temperature as observed at Nashville being 58.32, that of the summer 76.32, and of the winter 39.67. The average annnal rainfall is about 45 inches. Tennessee is rich in marble, limestone and other building stones and coal. Copper and iron are abundant.

The following tæble shows increase in population during 60 years:

MEDICAL LAWS OF TENNESSEE.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY IN THE STATE OF TENNESSEE.

SECTION 1. *Be it enacted by the general assembly of the State of Tennessee*, That no person shall practice medicine in any of its departments, except dentistry, within this State unless such person possess all the qualifications required by this act. If a graduate in medicine, he shall present his diploma to the State board of medical examiners for verification as to its genuineness. If such a diploma is found genuine, and from a legally chartered allopathic, homoeopathic or eclectic medical college in good standing with the school of medicine in which said college is classed, of which the State board of medical examiners shall be the judge, and if the person named therein be the person claiming and presenting the same, the State board of medical examiners shall issue a certificate to that effect, signed by all the members thereof, and such certificate shall be conclusive as to the right of the lawful holder of the same to practice medicine in this State.

2. *Be it further enacted*, That all persons who shall be in actual practice of medicine or surgery in the State at the time of the passage of this act shall, within six months after this act takes effect, be required to make satisfactory proof of this fact to the county court clerk of the county in which he resides, when said county court clerk shall issue a certificate in each case, in accordance with the facts, and such certificate shall entitle the lawful holder thereof to all the privileges contemplated in this act. A certified copy of this certificate shall be forwarded to the State board of medical examiners.

3. *Be it further enacted*, That any person wishing to enter upon the practice of medicine in any of its branches, except dentistry, after the passage of this act, shall present to the board of medical examiners a diploma from some medical college in good standing, and said board shall recognize any college that is recognized by the National Medical Association, or shall present himself before the board for examination upon the following branches, viz.: anatomy, physiology, chemistry, pathology, surgery, obstetrics and therapeutics. If the diploma be found genuine, or if the applicant for examination shall be found worthy and competent, then said board shall issue a certificate in each case in accordance with the facts, and such certificate shall entitle the lawful holder thereof to all the privileges of this act.

4. *Be it further enacted*, That immediately upon the passage of this act, the governor shall appoint six graduate physicians, two from each grand division of the State, as a state board of medical examiners, whose duty it shall be to examine into the qualifications of all applicants for license to practice medicine or surgery, in accordance with the foregoing sections of this act; provided that the three schools of medicine, viz.: Allopath, Homoeopath and Eclectic shall be represented on said board of examiners. Not less than five shall constitute a quorum, and a majority of those present shall be necessary to reject any application, but such rejection shall not bar the applicant against a re-examination after the lapse of three months; provided that the members of the board representing each school of medicine shall have the right to examine all applicants of that school, and the board shall issue the certificate of qualification to applicants who are recommended by the members of the board who belong to said school after such examination.

5. *Be it further enacted*, That to prevent delay and inconveniences two members of the board may grant a temporary license to any applicant, and make report thereof to the board at the next regular meeting; such temporary license shall not continue in force longer than until the next regular meeting of the board, and such temporary license shall in no case be granted within six months after the applicant has been refused a license by the board.

6. *Be it further enacted*, That the first Board of Medical Examiners shall meet and organize thirty days from the date of their appointment, and shall name for the terms of one, two, three, four, five and six years, respectively, deciding by lot or agreement among themselves as to their respective terms of service; at the expiration of the above terms each member of the board shall be appointed for six years; all vacancies occurring in the board by death or resignation shall be filled by the board itself for the remainder of such term or terms; the members of said board shall not be members of the State Board of Health, nor any medical faculty.

7. *Be it further enacted*, That the regular meetings of the board shall be once each year, at such time and place as the board may decide, but the president of the board may call a special meeting whenever it is demanded by public necessity, the call to be issued by the secretary and signed by the president.

No Injection of Air When the ALPHA CONTINUOUS FLOW SYRINGE is used. (See Adv., Page 14.)

Tennessee.

8. *Be it further enacted*, That the Board of Medical Examiners are authorized to elect such officers and to form such by-laws as may be necessary for the efficient operations of the board.

9. *Be it further enacted*, That every person holding a certificate from the State board of Medical Examiners or the county court clerk, shall have it recorded in the office of the county court clerk in which he resides and the date of record shall be endorsed thereon. Until such record is made the holder of such certificate shall not exercise any of the rights or privileges therein conferred to practice medicine. Any person removing from one county to another to practice medicine shall record in like manner the certificate in the county to which he removes, and the holder of the certificate shall pay the county clerk the usual record fee for so doing. Practitioners in one county may go from one county to another on professional business without being required to register if they have done so in the county in which they reside.

10. *Be it further enacted*, That the county clerk shall keep in a book provided for the purpose a complete list of the certificates recorded by him, with the date of issue of each certificate and date of record. If the certificate be based on a diploma he shall record the name of the medical institution conferring it and the date when conferred. The register of the county clerk shall be open to public inspection during business hours.

11. *Be it further enacted*, That the Board of Examiners shall keep a record of its proceedings in a book for that purpose, which shall be open for inspection, and shall record the name of each applicant, the time of granting a license with the name of the members of the board present.

12. *Be it further enacted*, That the members of said board shall receive as a compensation for their services, ten dollars (\$10) per day, during their sessions, and in addition thereto, their hotel and traveling expenses by the most direct route to and from their respective places of residence, to be paid out of any moneys in the treasury of the board, upon the certificate of the president and secretary. The board is empowered to demand a fee of one dollar (\$1) for the issuing of each certificate. The fee for the examination of non-graduates shall be ten dollars (\$10). If the applicant fails to pass a satisfactory examination, and no certificate or license is issued to him, five dollars (\$5) only of his fee is to be retained. The fee for a certificate of temporary license shall be one dollar (\$1), to be paid into the treasury of the board, said fee to be accredited to the applicant when he applies to the board for permanent license.

13. *Be it further enacted*, That any itinerant vender of any drug, nostrum, ointment or application of any kind, intended for the treatment of diseases or injury, or who may, by writing, printing or other method, profess to cure or treat diseases or deformity by any drug, nostrum, manipulation or other expedient, in this State, shall if found guilty, be fined in any sum not less than one hundred dollars (\$100) and not exceeding four hundred dollars (\$400) for each offense, to be recovered in action of debt before any court of competent jurisdiction.

14. *Be it further enacted*, That any person who shall practice medicine or surgery in this State without the certificate issued by the Board of Examiners, or county court clerk, as provided in section 2 in compliance with the provisions of this act, shall, for each and every instance of such practice, forfeit and pay to the people of the State of Tennessee for the use of said Board of Examiners, the sum of twenty-five (\$25) dollars for the first offense, and two hundred (\$200) dollars for each subsequent offense, the sum to be recovered in an action of debt before any court of competent jurisdiction. Any person filing or attempting to file, as his own, the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of felony, and upon conviction shall be subject to such punishment as is made and provided by the statute of the State for the crime of forgery. But this act is not to be construed so as to prohibit the right of appeal; and when an appeal is prayed in behalf of the people, no appeal bond shall be required or filed, whether the appeal be from a justice of the peace or from a higher court; but it shall be sufficient, in behalf of the people of the State of Tennessee, for the use of the Board of Examiners, to pray appeal, and thereupon appeal may be had without bond or security. Nothing in this act shall be construed to apply to women who pursue the avocation of midwife.

15. *Be it further enacted*, That the secretary and treasurer of the board of examiners shall give bond with good security in amount sufficient to cover all moneys coming into his hands, for the safe keeping of the same.

16. *Be it further enacted*, That the said board shall have power to revoke any license or certificate issued by them, when, upon satisfactory proof, it shall appear that the physician thus licensed has been guilty of immoral or unprofessional conduct.

17. *Be it further enacted*, That it shall not be lawful for the state board of examiners, or any member thereof in any manner whatever, or for any purpose to charge or obligate the State of Tennessee for the payment of any money; and the said state board shall look alone to the revenue derived from the operations of this act for the compensation designated in section 12 of this act, and if said revenue is not sufficient to pay each member in full, as per section 12, then the amount thus received shall be pro-rated between the members. But if there shall be a greater revenue derived than shall be sufficient to pay the members, as provided in section 12, such surplus shall be paid to the controller of the State, who shall receipt the board for the amount received, and shall account for said money as other State revenue.

18. *Be it further enacted*, That this act take effect (60) sixty days after its passage, and all acts or parts of acts, in conflict with this act, be and the same are hereby repealed.

Approved, April 4, 1889.

The postoffice address is shown in **Display Type**, the name of county in which located immediately follows, and then the population of the place. The names of Physi appear under the postoffice name, the first number (the key to which will be found on p 101 to 120) indicates the college of graduation, and the last number the year in which dip was granted.

DR. JEROME KIDDER'S Electro-Medical Apparatuses

ARE THE BEST TO CURE DISEASE.

Owing to the physiological qualities of Electricity, they produce the simplicity of operation and durable construction.

(See cut shown without lid, a most perfect and convenient apparatus, the invention of Dr. Kidder.)

Our Machines are manufactured under "Letters Patent" for marked and decided Improvements, rendering them superior to any manufactured either here or abroad.

WE MANUFACTURE A COMPLETE LINE OF

OFFICE FARADIC BATTERIES.

Also, CABINET, GALVANIC, GALVANO-CAUTERY, and COMBINED GALVANIC and FARADIC APPARATUS with Tip Cells or Upright Cells, as desired.

GALVANIC BATTERIES from 4 to 36 cells constantly on hand, and an
IMPROVED POCKET INDUCTION APPARATUS.

CAUTION.—We are sole proprietors of the **PATENT TIP BATTERY**, and all purchasers of infringements are held liable for royalty (or cost of goods) to the JEROME KIDDER MANUFACTURING CO.

All parties claiming highest awards for above **Are Fraudulent**, such claims being made to deceive the public. To distinguish the genuine from the spurious, send for Electro-Allotropic Physiology, mailed free if the MEDICAL AND SURGICAL REGISTER OF U. S. is mentioned.

TEXAS.

CAPITAL, AUSTIN.

POPULATION OF STATE, 2,015,032.

(Census of 1887.)

POPULATION, Census of 1880, 1,591,749. Increase per cent., 26.59.

Males.....	837,840	Native.....	1,477,133
Females.....	753,909	Foreign.....	114,616
White.....	1,197,237	Chinese.....	136
Colored.....	393,984	Indians.....	992

Texas, the largest State in the Union, extends from 25° 51' to 36° 30' north latitude, and from 93° 31' to 106° 43' west longitude, and is bounded on the north by the Indian Territory, on the southeast by the Gulf of Mexico, on the southwest by Mexico, on the east by Arkansas and Louisiana, and on the west by New Mexico. It comprises an area of 274,356 square miles, or 175,587,840 acres. The surface is diversified, and includes mountain ranges, low fertile valleys, rolling prairies and arid tablelands.

The State is well watered, the principal rivers being the Rio Grande, Red, Sabine, Trinity, Brazos, Colorado, Guadalupe, San Antonio and Nueces.

The climate is warm but equable and salubrious, and the mean annual temperature, as observed at Austin, is 66.72°, and at Galveston 69.38°. In the extreme south it is about 75°, and in the north it falls to 56°. The average annual rainfall is about 41 inches.

The borders of the streams are fringed by belts of deciduous trees. Cotton and corn are the agricultural staples, but Texas is pre-eminently a stock-raising State, and immense herds of cattle roam over the extensive prairies.

The mineral resources of Texas are great, and as yet are but partially developed. The precious metals are found in the mountain chains in the west, and coal, iron, salt, chalcedony, jasper, sandstone and limestone abound.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The following table shows increase in population during 37 years :

1850... ..	212,592	1880.....	1,591,749
1860.....	604,215	1887.....	2,015,032
1870.....	818,579		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 2,996; capital invested, \$9,245,561; number of hands employed, 12,159; total wages paid during the year, \$3,343,087; value of materials, \$12,956,269; value of products, \$20,719,928.

There are several mineral springs in the State.

There are two medical colleges in the State, the Texas Medical College and Hospital, at Galveston, and the Medical Department San Antonio University, at San Antonio.

Rate of Mortality in Texas, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White	Colored,	Rate per 1,000, White.	Rate per 1,000, Colored.
1,591,749	24,735	15.54	18,998	5,737	15 87	14 54

Total number of deaths from consumption during 1880 was 1,622, which was at the rate of 1.00 per 1,000 of population, or 65.57 per 1,000 of total deaths.

MEDICAL LAWS OF TEXAS.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE.

Be it enacted by the Legislature of the State of Texas :

SECTION 1. That no person shall be permitted to practice medicine, in any of its branches or departments, in this State, without first having a certificate of qualification from some authorized board of medical examiners, as hereinafter provided.

2. That every person who may hereafter engage in the practice of medicine, in any of its branches or departments, in this State, shall, before entering upon such practice, furnish to the clerk of the district court of the county in which said practitioner may reside or sojourn, his certificate of qualification; and said clerk shall enter the name of said person in a well-bound book, kept in his office for that purpose, together with the time when, the place where, and the person or persons by whom such certificate of qualification was given, after which he shall return the said certificate to the owner thereof; for which service said clerk shall be entitled to receive from each, any and every such applicant the sum of one dollar.

3. That the presiding judges of the district courts of the several judicial districts shall, at the first regular term of their courts after this act shall become a law, or as soon thereafter as practicable, severally appoint a board of medical examiners for their respective districts, to be composed of not less than three practicing physicians of known ability, and having certificates of qualification for the practice of medicine under the "Act to Regulate the Practice of Medicine," passed May 16, 1873, and said board of examiners to continue in office two years from and after their appointment; and they shall, immediately after accepting such appointment, elect one of their number president, and one as secretary, and adopt all necessary rules for the guidance and control of their meetings. It shall be the duty of said board of medical examiners to examine all applicants for certificates of qualification to practice medicine in any of its branches or departments, in this State, whether such applicants are furnished with medical diplomas or not, upon the following named subjects, to-wit: anatomy, physiology, pathological anatomy and pathology, surgery, obstetrics and chemistry; said examination to be thorough. When the said board of medical examiners shall have been satisfied as to the qualifications of said applicant, they shall grant to him a certificate to that effect, which certificate shall be recorded with the clerk of the district court of the county in which said applicant may reside or sojourn, as provided in section two of this act, which certificate shall entitle him to practice anywhere in this State. Such board of examiners shall be entitled to receive the sum of fifteen dollars from each and every such applicant, to be paid by the applicant or party so examined; and two of them shall have authority to grant certificates, and whenever a vacancy occurs in any of said boards, the same shall be filled by appointment by the judge of the district in which such vacancy occurs.

4. That said boards shall meet regularly semi-annually at some central point in their respective districts to conduct examinations and grant certificates, as hereinbefore provided, and they shall give at least one month's public notice of said meeting, by publication, in some paper published in the judicial district, specifying the time and place thereof: *Provided*, That any member of any of said boards shall have authority to grant temporary license or certificate to an applicant, upon examination, until the next regular meeting of the board, at which time the temporary license shall cease; but the said applicant must apply for a thorough examination. Each and every one of such boards shall procure a seal, as soon as practicable after their organization, which seal shall be impressed upon every certificate granted.

5. That any person violating any of the provisions of this act shall be guilty of a misdemeanor, and on conviction thereof, before any court having competent jurisdiction, shall be fined in any sum not less than fifty dollars, and not more than five hundred dollars, for every such offense; one-half of such fine shall be paid to the prosecutor, and the other half into the

county treasury; and it shall be the duty of the judge of each judicial district, at each term of the district court in the respective counties composing his district, to charge the grand jury with the necessity of preserving this act inviolate, and to admonish them of their duty to file presentments against any and all persons guilty of its infraction: *Provided*, That nothing in this act shall be so construed as to exclude or disqualify any person who may have been already qualified for the practice of medicine under the act of May 16, 1873: *Provided*, That nothing in this act shall be so construed as to apply to those who have been regularly engaged in the general practice of medicine in this State, in any of its branches or departments, for a period of five consecutive years, in this State, prior to the first day of January, 1875; nor to those who have obtained certificate of qualification under said act; nor to females who follow the practice of midwifery, strictly as such.

6. An Act entitled "An act to regulate the practice of medicine," passed sixteenth of May, 1873, and all other laws or parts of laws in conflict herewith, are hereby repealed.

7. It being important that the benefits of this act be realized at once, creates such imperative public necessity and an emergency as requires that it be of force and effect upon its passage, and it is so declared.

Approved August 21, 1876.

Article 396 of the Penal Code provides: If any person shall practice for pay, or as a regular practitioner, medicine in this State, in any of its branches or departments, or offer or attempt to practice without first having obtained a certificate of professional qualification from some authorized board of medical examiners, or without having a diploma from some accredited medical college, chartered by the legislature of the State or its authority, in which the same is situated, he shall be punished by a fine of not less than fifty nor more than five hundred dollars.

Article 398. If any person shall hereafter engage in the practice of medicine, in any of its branches or departments, for pay, or as a regular practitioner, without having first filed for record with the clerk of the district court of the county in which such person may reside or sojourn, a certificate from some authorized board of medical examiners, or a diploma from some accredited medical college, he shall be punished as prescribed in Article 396.

Approved March 26, 1879.

UTAH.

CAPITAL, SALT LAKE CITY.

POPULATION OF TERRITORY, 143,963.

(Census of 1880.)

Estimated Population, 1889, 230,000.

Males	74,509	Native.....	99,969
Females.....	69,454	Foreign.....	43,994
White.... ..	142,423	Chinese	501
Colored.....	232	Indians.....	807

The Territory of Utah extends from 37° to 42° north latitude, and from 109° to 114° west longitude, and is bounded on the north by Wyoming and Idaho, on the south by Arizona, on the east by Colorado, and on the west by Nevada. It comprises an area of 84,476 square miles, or 54,064,640 acres, and forms part of the vast plateau which lies between the Rockies and the Sierra Nevada. The surface is very mountainous, interspersed with arid plains, valleys and basins; much of it is utterly sterile. The principal rivers of the Territory are the Bear, Malade, Weber, Ogden, Jordan, Green, Grand, White, etc. The climate is mild and dry, the mean annual temperature as observed at Salt Lake City being 51.86°, that of the summer 73.59°, and of the winter 30.38°. The average annual rainfall is about 18 inches, but in the vicinity of the Great Salt Lake it increases to 23 inches. Forests of coniferous trees are found in the higher mountains, but the Territory generally is not well timbered. Utah possesses immense mineral resources, gold, silver, lead, iron, salt, coal and copper being produced in large quantities. Stock raising is a profitable industry, and can be carried on successfully in sections where farming is impracticable.

The following table shows increase in population during the past 39 years:

1850.....	11,380	1880	143,963
1860.....	40,273	1889.....	230,000
1870.....	86,786		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 640; capital invested, \$2,656,657; number of hands employed, 2,495; total wages paid during the year, \$858,863; value of materials, \$2,561,737; value of products, \$4,324,992.

Rate of Mortality in Utah, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
143,963	2,414	16.77	2,403	11	16.87	7.14

Total number of deaths from consumption during 1880 was 69, which was at the rate of .40 per 1,000 of population, or 28.58 per 1,000 of total deaths.

The State of Vermont extends from 42° to 45° north latitude, and from 71° 25' to 73° 26' west longitude, and is bounded on the north by Canada, on the south by Massachusetts, on the east by New Hampshire and on the west by New York. It comprises an area of 10,212 square miles, or 6,535,680 acres, and is intersected by the Green Mountains, which, trending from north to south, nearly parallel to the western boundary, are covered by dense forests of coniferous trees. The rivers of the State are the Connecticut, Barton, Black, Missisquoi, Lamville, Win-ooski, Passumpsic, Wells, Poultney, etc.

The climate is cold, and like most of the New England States, is marked by great extremes, the winters being severe and of long duration, and the summers short but extremely warm. The mean annual temperature, as observed at Montpelier, is 42.76°, and the average annual rainfall about 36 inches. Iron ore, marble, slate, building stone, kaolin and manganese are found in large quantities in various portions of the State. Agriculture and stock-raising are the principal industries, and Vermont wool is famous all over the United States.

The following table shows increase in population during 60 years :

1820.....	235,966	1860.....	315,098
1830.....	280,652	1870.....	330,551
1840.....	291,948	1880.....	332,286
1850.....	314,120		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 2,874; capital invested, \$23,265,224; number of hands employed, 17,540; total wages paid during the year, \$5,164,479; value of materials, \$18,330,677; value of products, \$31,354,366.

There are a number of mineral springs in the State.

The medical colleges of Vermont are : Medical Department of the University of Vermont, at Burlington ; and the Union Medical Institute, at Newbury.

Rate of Mortality in Vermont, as computed from the U. S. Census of 1880.

MEDICAL LAWS OF VERMONT.

PRACTICE OF MEDICINE AND SURGERY, CHAPTER 172, REVISED LAWS 1880.

SECTION 3908. Medical societies, organized under a charter from the general assembly, shall, at each annual session, elect a board of censors, consisting of three members, who shall hold their office till others are elected; which board may examine and license practitioners of medicine, surgery and midwifery.

3909. A practitioner of medicine, surgery or midwifery, who, by sign or advertisement, offers his services to the public as practitioner of either medicine, surgery or midwifery, or who, by such sign or advertisement, assumes the title of doctor, shall obtain a certificate from one of such medical societies, either from a county, district or State society.

3910. A person not a resident of this State, who has not received a diploma from a chartered medical college, shall obtain a certificate from a board of censors in this State before he shall be permitted to practice the medical art in this State.

3911. Each board of censors shall issue certificates, without fee, to physicians and surgeons who furnish evidence, by diploma from a medical college or university, or by certificate of examination from an authorized board, which satisfies said censors that the person presenting such credentials has been, after due examination, deemed qualified to practice the branches mentioned in such diploma or certificate.

3912. The censors of each medical society aforesaid shall, in their discretion, notify practitioners of medicine, surgery or midwifery of the terms of this chapter, and shall require such persons to comply therewith within thirty days after such notification, or within such further time as is allowed by the censors, not exceeding ninety days.

3913. The certificate shall set forth that said censors have found the person to whom it is given qualified to practice the branches of medical art mentioned in it, and shall be substantially in the following form:

No. —

Certificate.

STATE OF VERMONT, } ss.
COUNTY OF ———.

This may certify that the undersigned board of censors have found A. B., of ———, in the county of ———, and State of ———, qualified in the following branches of the medical profession: ———; and therefore license him to practice said branches within this State.

VIRGINIA.

CAPITAL, RICHMOND.

POPULATION OF STATE, 1,512,565.

(Census of 1880.)

ESTIMATED POPULATION, 1890, 1,800,000.

Males	745,589	Native.....	1,497,869
Females	766,976	Foreign.....	14,696
White	880,858	Chinese.....	6
Colored....	631,616	Indians	85

Virginia, one of the original thirteen States, extends from 36° 30' to 39° 27' north latitude and from 75° 10' to 83° 30' west longitude, and is bounded on the north by Maryland and West Virginia, on the south by Tennessee and North Carolina, on the east by Chesapeake Bay and the Atlantic Ocean, and on the west by Kentucky and West Virginia. It comprises an area of 38,348 square miles or 24,542,720 acres.

The six great natural divisions of the surface may be briefly described as follows: The tide water comprising the south and southeast; the middle an undulating plain extending west to the Coast range; the Piedmont from the Coast range to the Blue Ridge mountains and to North Carolina from the Potomac; the Blue Ridge crossing the State in a southwesterly direction; the Valley, a broad belt of gently rolling fertile country between the Blue Ridge and North mountains and the Appalachian, a mountainous region through which trend the Alleghenies. Much of the mountain region is well timbered, and the soil in the valleys is extremely fertile.

The principal rivers are the Potomac, Shenandoah, Rappahannock, Rapidan, York, James, New, Nottoway, Roanoke, West Fork, etc., etc.

The climate is mild and on the whole salubrious, the most unhealthy portion of the State being the tide water country. The mean annual temperature as observed at Richmond is 57.53° and the average annual rainfall is about 40 inches.

The minerals comprise coal, salt, gypsum, marl, iron ore, zinc, sulphur, kaolin, fire clay, marble, etc., etc., and are found in large and paying quantities. Tobacco is grown extensively and all the cereals flourish here.

The following table shows increase in population during the past 70 years:

1820..	1,065,116	1860.....	1,596,318
1830.....	1,211,405	1870.....	1,225,163*
1840.....	1,239,797	1880.....	1,512,565
1850.....	1,421,661	1890.....	1,800,000

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 5,710; capital invested, \$26,968,990; number of hands employed, 40,184; total wages paid during the year, \$7,425,261; value of materials, \$32,873,933; value of products, \$51,810,692.

There are a great number of mineral springs in Virginia.

LACTO-PREPARATA Is the NEAREST approach to HUMAN MILK THAT CAN BE PRODUCED.

The medical colleges of the State are, University of Virginia, Medical Department, Charlottesville; and Medical College of Virginia, Richmond.

Rate of Mortality in Virginia, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
1,512,565	24,681	16.32	12,345	12,336	14.01	19.52

The total number of deaths from consumption during 1880 was 3,025, which was at the rate of 2.00 per 1,000 of population, or 122.56 per 1,000 of total deaths.

* The decrease in population from 1860 to 1870 was due to the erection of West Virginia as a separate State, which took place during that period.

MEDICAL LAWS OF VIRGINIA.

Dr. J. L. CABELL, University of Virginia, furnishes the following :
Revised Code of Virginia (1887). Chapter 34, Section 550.

A separate license shall be granted to each member of a firm or company of attorneys-at-law, physicians, surgeons and dentists; and where the tax is estimated on the income from the professional business of a firm or company, if any part thereof is exempt from taxation, the exemption in favor of such firm or company shall apply to each member thereof.

SECTION 550. Provides that there shall be no abatement from the tax if the same be exercised for less than a year.

SECTION 62. No person shall, without a license practice as a physician, surgeon or dentist, for compensation; but a license to practice either profession shall confer the privilege of practicing in all the professions aforesaid, and a license granted to practice in any county or corporation shall authorize such physician, surgeon or dentist to practice in any of the professions authorized throughout the commonwealth without additional license. Any person violating the provisions of this section, or who shall practice in either of the professions named, without a license, shall pay a fine of not less than thirty dollars nor more than one hundred dollars for each offense, and shall be debarred from recovering any compensation for any such service, by suit or warrant, in any of the courts of the commonwealth.

Chapter 35, Section 51. The specific license tax on every physician, surgeon or dentist, shall be ten dollars.

Chapter 104, Section 2244. Every physician and surgeon shall in a book to be kept by him, make a record at once of the death of every person dying in this State, upon whom he has attended at the time of such death, setting out, as far as practicable, the circumstances herein required to be recorded by an assessor or commissioner respecting deaths. He shall give to an assessor or commissioner of the revenue, whenever called upon by him for that purpose, annually, a copy of such record, as far as the same relates to deaths in such assessor's or commissioner's district.

Compensation for attending prisoners, and for making analyses in criminal cases, is prescribed by the following statute, enacted during the session of 1877-78 :

Section 4079. A court may appoint a physician to attend prisoners in its jail, and make him a reasonable allowance, not exceeding seventy-five cents per day for each day he attends a patient. When he attends more than one patient a day, there may be allowed fifty cents per day for each additional patient. A court may make an allowance not to exceed the sum of twenty-five dollars, as compensation to any physician or analytical chemist, for making an analysis to discover poison in any criminal case.

NEW ENACTMENT ABOUT THE VIRGINIA STATE BOARD OF MEDICAL EXAMINERS.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY.

SECTION 1. *Be it enacted by the General Assembly of Virginia,* That there shall be for this State a Board of Medical Examiners, consisting of three members from each congressional district in the State, and two from the State at large, whose term of office shall be for four years, or until their successors are appointed and qualified. The term of office of the board first appointed shall commence on the first day of January, eighteen hundred and eighty-five.

2. The said board shall consist of men learned in medicine and surgery, and shall be appointed by the Governor on the first day of November, eighteen hundred and eighty-four, and every fourth year thereafter, from a list of names to be recommended by the Medical Society of Virginia. He shall also appoint five homoeopathic physicians, who may be nominated to him by the Hahnemann Medical Society of the Old Dominion, in the manner hereafter provided. Vacancies occurring in such board for unexpired terms, shall be filled in the same manner. Such recommendations shall be by the votes of a majority present at some meeting of the said societies, and the same shall be certified to the Governor by the president and secretary of such meeting: *Provided,* however, that in case the Governor shall consider any of the persons so recommended unsuitable, he may decline to appoint such person or persons, and communicate the fact to the presiding officers of the society presenting the nomination, and such society shall, within ninety days thereafter, make other recommendations, in the manner hereinafter prescribed, which shall stand on the same footing in all respects as those first made: *And provided further,* That if such society fail to make such recommendations prior to the time of appointments, or within ninety days, aforesaid, then the Governor shall appoint such board, either in whole or part, without regard to such recommendations. If any of said examiners shall cease to reside in the district for which he was appointed, it shall vacate his office.

3. The members of said Board of Medical Examiners shall qualify and take the usual oath of office before the county or corporation court of the county or corporation in which they shall respectively reside. The officers of said board shall be a President, Vice-President and Secretary (who shall also act as Treasurer), and said officers to be members of and elected by said board. The first meeting of the same shall be at Richmond, and at such time as the Governor shall notify the members by mail to assemble. Subsequent regular meetings shall be held at such times and places as the board may prescribe, and special meetings may be held upon the call of the president and five members, but there shall not be less than one regular meeting per annum. Eleven members of said board shall be a quorum. Said board may organize at its first meeting, and may, at its first or any subsequent meeting, prescribe rules, regulations and by-laws for its own proceedings and government, and for the examination of candidates for the practice of medicine and surgery by its individual members.

(1. *Be it enacted by the General Assembly of Virginia,* That section 4 of an act, entitled "An Act to Regulate the Practice of Medicine and Surgery," approved January 31, 1884, be amended and re-enacted so as to read as follows:)

SECTION 4. It shall be the duty of said board, at any of its meetings, to examine all persons making application to them, who shall desire to commence the practice of medicine or surgery in this State; and when an applicant shall have passed an examination satisfactory as to proficiency before the board in session, the president thereof shall grant to such applicant a certificate to that effect. A fee of \$5 shall be paid to said board, through such officers or members as it may designate, by each applicant before such examination is had. In case any applicant shall fail to pass a satisfactory examination before the board, he shall not be permitted to stand any further examination within the next three months thereafter, nor shall he have again to pay the fee prescribed as aforesaid: *Provided, however,* No applicant shall be rejected upon his examination on account of his adherence to any particular school of medicine or system of practice, nor on account of his views as to the method of treatment and cure of diseases; and *provided further,* that when, in the opinion of the president of the board, any applicant has been prevented by good cause from appearing before the board, he shall appoint a committee of three members, who shall examine such applicant, and may grant him a certificate, which shall have the same force and effect as though granted by the full board.

(2. This act shall be in force from its passage:)

5. The fund realized from the fees aforesaid shall be applied by the board toward its expenses, including a reasonable compensation to the president and secretary.

6. Any person who shall obtain a certificate as aforesaid from the president of said board shall cause his name to be registered in the clerk's office of the county or corporation court for the county or corporation in which he shall reside; and it shall be the duty of said clerk to register the name of every such person, describing such certificate, together with the date thereof, and the name of the president of the board, signing the same in a book kept for the purpose, as a part of the records of his court, which shall also give the date of each registration, and his fee for each registration shall be one dollar, to be paid by the person whose name is registered.

7. No person who shall commence the practice of medicine or surgery after the first day of January, eighteen hundred and eighty-five, shall practice as physician or surgeon for compensation without first having obtained a certificate and caused his name to be registered as aforesaid. Any person violating the provisions of this section shall pay a fine of not less than fifty nor more than five hundred dollars for each offense, and shall be debarred from receiving any compensation for service rendered as such physician or surgeon.

8. Any person who shall have been assessed with a license tax as a physician or surgeon by any commissioner of the revenue in this State at any time prior to the first day of January, eighteen hundred and eighty-five, shall be taken as having commenced the practice of medicine or surgery prior to that date; but any person who shall not have been so assessed, shall be taken as not having commenced such practice prior to that date.

9. Any physician or surgeon who shall commence to practice after the first day of January, eighteen hundred and eighty-five, and who shall reside in an adjoining State, within ten miles of the boundary line of this State, shall be entitled to stand the examinations and receive the certificate hereinbefore provided for, and such certificate shall be registered as hereinbefore provided, in that county in this State which is nearest his place of residence, and such certificate and registration shall make it lawful for him to practice medicine or surgery.

10. Nothing in this act shall be taken as including or affecting in any way the practice of dentistry, nor shall it include physicians or surgeons residing in other States, and called in consultation in a special case with a physician or surgeon residing in this State. Nor shall it be construed as affecting or changing in any way the laws in reference to the license tax to be paid by physicians, surgeons and dentists.

11. Provided, the provisions of this act shall not apply to any midwife.

Amended and approved, March 3d, 1888.

As a further law on the subject of attempting to practice in Virginia without previously having a proper license, we append:

AN ACT to * * * provide for the Mode of Applying for License to Transact any Business in this State—Approved March 6th, 1886.

§ 80. No person shall, without a license authorized by law, practice as an attorney-at-law, physician, surgeon or dentist, and no person who shall hereafter apply for license to practice as a physician or surgeon, shall have such license granted to him, unless he shall have complied with the provisions of an act, entitled "An Act to Regulate the Practice of Medicine and Surgery," approved January thirty-first, eighteen hundred and eighty-four: *Provided*, That no person who was licensed to practice as physician or surgeon, at any time prior to January the first, eighteen hundred and eighty-five, need comply with the provisions of said act in order to be again licensed as a physician or surgeon.

AN ACT REGULATING THE PROCURING AND DISTRIBUTION OF DEAD BODIES FOR THE PROMOTION OF MEDICAL SCIENCE.

Chap. 80. Sec. 1776. BOARD FOR DISTRIBUTING DEAD HUMAN BODIES.—The professors of anatomy, the professors of surgery, and the demonstrators of anatomy of the University of Virginia, and of the several colleges and schools of this state authorized by law to teach medical science and issue diplomas, shall continue to be a board for the distribution and delivery of dead human bodies as and for the purpose provided in this chapter. The said board shall have power to make rules and regulations for their government and the proper discharge of their functions.

1777. RECORD OF THEIR PROCEEDINGS.—They shall keep a record of their proceedings, and particularly of all bodies received and distributed; which record shall be open at all times to the inspection of each member of the board and the commonwealth's attorney of each city in the State.

1778. NOTIFICATION AND DELIVERY OF BODIES.—All officers, agents and servants of every city in the State, and of every almshouse, prison, morgue, hospital, jail or other public institution in such city having charge or control of any dead human body which is required to be buried at the public expense, and every officer or other person having charge or control of the body of any person upon whom the sentence of death for crime has been executed under the law, shall notify the said board, or such person or persons as may from time to time be designated by the board or their duly authorized officer or agent, whenever and as soon as any such body comes to his or their possession, charge or control, and shall, without fee or reward, deliver such body and permit the said board and its agents, and such physicians and surgeons as may from time to time be designated by the board and shall have given the bond required by section seventeen hundred and eighty-one, to take and remove any such body to be used for the advancement of medical science; but no such notice need be given, nor shall any such body be delivered (except in the case of criminals), if any person claiming to be, and satisfying the authorities in charge of said body that he is of kin and related by marriage to the deceased, shall claim the body for burial and pay the expenses thereof; nor shall the notice be given or the body be delivered if deceased was a traveler who died suddenly.

1779. THEIR DISTRIBUTION.—The bodies received shall be distributed by the board to and among the University, the colleges and schools aforesaid, and such physicians and surgeons as the board may designate. The University and the said colleges and schools shall first be supplied with bodies needed for lectures and demonstration. The remaining bodies shall be distributed equitably among the physicians and surgeons aforesaid: *Provided*, that in such equitable distribution the physicians and surgeons as aforesaid of the city where the death of the person takes place shall have prior right to receive the body. The board, instead of by themselves or through their agents receiving and delivering said bodies, may, from time to time, either directly or by their officers or agents, designate physicians and surgeons to receive the same, and the number each shall receive. For the purpose of the distribution contemplated by this section, the body shall be held subject to the order of the board or their authorized agents, in the city where the death occurs not less than twenty-four hours.

1780. EMPLOYMENT AND DUTIES OF CARRIERS; BURIAL OF BODIES.—The said board may employ a carrier or carriers for the conveyance of the said bodies, which shall be well enclosed in a suitable case, and carefully deposited, free from public observation. Every such carrier shall obtain a receipt by name, or, if the person be unknown, by a description, for each body delivered by him, and deposit such receipt with the secretary of the board. After the said bodies shall have been sufficiently used for the purposes of instruction, they shall be decently interred by the University, colleges, schools, physicians and surgeons, as the case may be, receiving them.

1781. BOND OF PERSON OBTAINING BODIES; PENALTY FOR TRAFFICING IN THEM; THEIR IMPORTATION.—Neither the University, nor any college, school, physician or surgeon, shall be allowed

to receive any such body until a bond shall have been given to the commonwealth by such physician or surgeon, or by or in behalf of the University, or such college or school, to be approved by the judge, clerk, or commonwealth's attorney of the county or corporation in which such physician or surgeon resides, or in which the University or such college or school is situated, and filed in the office of the clerk of said court, in the penalty of one thousand dollars, with condition that all such bodies which the said physician or surgeon, or the University, or said college, or school, as the case may be, shall receive thereafter, shall be used only for the promotion of medical science within this State. If any person sell or buy any such body, or in any way traffic in the same, or transmit or convey, or procure in order to be transmitted or conveyed, any such body to any place outside of this State, he shall be fined not exceeding two hundred dollars, or, in the discretion of the jury, be confined in jail not exceeding one year; *Provided*, that the board may, in their discretion, on the application of any person, empower such person to import into this State and traffic in such anatomical material and pathological specimens as the board may designate.

1782. **EXPENSES.**—Neither the commonwealth, nor any city, nor any officer, agent nor servant thereof, shall be at any expense by reason of the delivery or distribution of any such bodies as are mentioned in section seventeed hundred and seventy-eight, but all expenses thereof, and of said board in relation thereto, shall be paid by those receiving the said bodies, in such manner as may be prescribed by the board, or agreed upon.

1783. **PENALTY.**—If any person fail or refuse to perform any duty imposed upon him by this chapter, he shall, for every such failure or refusal, be fined not less than one hundred nor more than five hundred dollars.

WASHINGTON.

CAPITAL, OLYMPIA.

POPULATION OF STATE, 75,116.

(Census of 1880.)

Males	45,973	Native.....	59,313
Females.....	29,143	Foreign.....	15,803
White.....	67,199	Chinese.....	3,187
Colored.....	325	Indians.....	4,405

Washington extends from 45° 33' to 49° north latitude, and from 117° to 124° 41' west longitude, and is bounded on the north by the British Possessions, on the south by Oregon, on the east by Idaho, on the west by the Pacific Ocean, and on the northwest by the Strait of San Juan de Fuca and the Strait of Georgia. It comprises an area of 69,994 square miles or 44,796,160 acres, and is divided by the Cascade Mountains into two distinct sections; the western a heavily timbered country, rugged and broken, with a few fertile prairies; and the eastern, which has extensive plains admirably adapted to stock raising. Wheat, barley, flax, hops, and oats are the agricultural staples, and are grown principally west of the Cascades.

The climate is mild, equable and salubrious, and the mean annual temperature is 50.81°. The average annual rainfall is about 39 inches. The principal rivers are the Columbia, Snake, Spokane, Walla Walla, Yakima, Klikitat, Cowlitz, etc. Gold and silver are mined. Salt abounds on the Spokane Plain. Large coal fields occur near Bellingham Bay and back of Seattle, on Lake Washington, and iron, copper, lead, zinc, cinnabar, gypsum, etc., are found in large quantities.

The following table shows increase in population during 20 years :

1860.....	11,594	1880.....	75,116
1870.....	23,955		

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 261, capital invested, \$3,203,497 ; number of hands employed, 1,147 ; total wages paid during the year, \$532,226; value of materials, \$1,967,469 ; value of products, \$3,250,134.

Fishing is an important industry, and immense numbers of salmon are canned here every year and shipped to all parts of the Union.

Rate of Mortality in Washington, as computed from the U. S. Census of 1880.

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000, White.	Rate per 1,000, Colored.
75,116	755	10.05	703	52	10.46	6.56

Total number of deaths from consumption during 1880 was 100, which was at the rate of 1.30 per 1,000 of population, or 132.45 per 1,000 of total deaths.

The State of West Virginia is bounded on the north by Pennsylvania and Maryland, on the south and east by Virginia, and on the west by Kentucky and Ohio. It extends from 37° 6' to 39° 37' north latitude, and from 77° 43' to 82° 33' west longitude, and comprises an area of 24,780 square miles, or 15,859,200 acres. The surface is mountainous and well wooded, and the bottom lands are wonderfully fertile, being especially adapted to grazing and dairy farming. Blue grass is indigenous. The principal rivers are the Ohio, Potomac, Monongahela, Cheat, Big Sandy, Little and Great Kanawhas, etc. The climate is mild and healthful, the mean annual temperature, as observed at Kanawha, being 54.27°; that of the summer, 71.40°, and of the winter, 36.66°. The average annual rainfall is about 43 inches. Nearly the whole of the State lies within the Allegheny coal system, and large quantities of coal are exported. The other great mineral resources of the State are salt, iron ores, fire clay, petroleum, lime and sand stones, etc. The agricultural staples are corn, wheat, oats and tobacco; and West Virginia is specially famous for wool.

The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The following table shows increase in population during 10 years:
1870.....442,014 | 1880618,457

The census of manufactures for 1880 shows the total number of establishments in operation at that time to have been 2,375; capital invested, \$13,883,390; number of hands employed, 14,351; total wages paid during the year, \$4,313,965; value of materials, \$13,891,444; value of products, \$22,867,126.
West Virginia has a number of mineral springs.

Rate of Mortality in West Virginia, as computed from the U. S. Census of 1880:

Population.	Deaths in 1880.	Rate per 1,000.	White.	Colored.	Rate per 1,000 White.	Rate per 1,000 Colored.
618,457	7,418	11.99	6,984	434	11.78	16.74

Total number of deaths from consumption during 1880 was 969, which was at the rate of 1.50 per 1,000 of population, or 130.62 per 1,000 of total deaths.

MEDICAL LAWS OF WEST VIRGINIA.

AN ACT AMENDING AND RE-ENACTING CHAPTER 150 OF THE CODE OF WEST VIRGINIA CONCERNING THE PUBLIC HEALTH.

Be it enacted by the Legislature of West Virginia :

SECTION 1. There shall be a State Board of Health in this State, consisting of two physicians residing in each congressional district thereof, who shall be graduates of reputable medical colleges, and who shall have practiced medicine for not less than twelve years continuously. They shall be appointed by the Governor, and hold their office for the term of four years, unless sooner removed as provided in this chapter. But the members of said board now in office shall, unless sooner removed therefrom, remain in office until their successors are appointed and qualified. On the first day of June, 1882, and in every second year thereafter, or as soon after said day as possible, the Governor shall appoint two members of said board for the term of four years. Vacancies in said board shall be filled by the Governor for the unexpired term. Any person so appointed may be removed from office by the Governor for incompetency, neglect of duty, gross immorality or drunkenness, or for any cause deemed necessary for the public good.

2. The persons so appointed shall take the oath of office prescribed by the fifth section of the fourth article of the constitution of this State, before entering upon the duties of their office, and file a certificate of their having done so with the Secretary of State.

3. The said board shall, on a day to be fixed by them, in every two years, elect from their own number a president and secretary, who shall hold their offices for the term of two years and until their successors are appointed and enter upon the duties of their office. The said board shall be a corporation by the name and style of "The State Board of Health of West Virginia," and have and use a common seal, and, as such corporation, may sue and be sued, contract and be contracted with, plead and be impleaded, to the extent of the powers conferred upon said board by this chapter. Said board may make and adopt all necessary rules, regulations and by-laws, not inconsistent with the constitution and laws of this State, or of the United States, to enable it to perform its duties and transact its business under the provisions of this chapter. A majority of said board shall constitute a quorum for the transaction of business. A meeting of the board may be called by the president or any three members thereof.

4. The secretary shall be the recording officer of the board, and, in addition to his other duties prescribed in this chapter, he shall respond to all communications of the local boards of health, as well as from any member of said State Board of Health residing at a distance from his office, and give to them such advice and information relative to their duties as he may deem necessary and proper. He shall also do and perform such other duties as the State Board of Health may lawfully direct; and in case of the prevalence of endemics, epidemics, infectious and contagious diseases, or other unusual sickness, he shall, on the request of the local board of health, visit the locality and advise with them, and adopt such regulations for its suppression as may seem best. He shall annually report to the Governor, on or before the first day of January, the investigations, discoveries and recommendations of the board, which shall be printed and distributed as soon as practicable thereafter in the same manner as other public documents of the State, except that the Governor may cause said report to be printed and distributed annually.

5. The board shall take cognizance of the interests of the life and health of the inhabitants of the State, and shall make, or cause to be made, sanitary investigations and inquiries respecting the causes of diseases, especially the endemics and epidemics, and the means of prevention, the sources of mortality, and the effects of localities, employments, habits and circumstances of life on the public health. They shall also investigate the causes of diseases occurring among the stock or domestic animals in the State, the methods of remedying the same, and shall gather information in respect to these matters and kindred subjects for diffusion among the people. They shall also examine into and advise as to the water supply, drainage and sewerage of towns and cities; the ventilation and warming of public halls, churches, school houses, workshops and prisons; the ventilation of coal mines, and how to treat promptly accidents resulting from poisonous gases. When they may believe there is a probability that any infectious or contagious disease will invade the State from any other State, it shall be their duty to take such action and adopt and enforce such rules as they may, in the exercise of their discretion, deem efficient in preventing the introduction and spread of such disease or diseases. The better to accomplish such objects, the board are empowered to establish and strictly maintain quarantine at such places as they may deem proper, and may adopt rules and regulations to obstruct and prevent the introduction or spread of infectious or contagious diseases to or within this State. They may enforce inspections of persons and articles of baggage, or other goods of whatsoever character, as well as the purification of the same; and companies or individuals operating or controlling railroads, passenger coaches, public conveyances, and steamers plying the Ohio river, or its tributaries in this State, shall obey the rules and regulations when made and published by the board in some newspaper printed at or near the place where the danger is; and any owner or person having charge of such railway train, passenger coach, steamboat, or public or private conveyance, who shall refuse to obey such rules and regulations when so made and published, shall be guilty of a misdemeanor, and for each offense be fined not less than fifty nor more than five hundred dollars, and be confined in the county jail not less than fifteen days nor more than two months, at the discretion of the court.

6. It shall be the duty of the county court to nominate, and the said board to appoint, in each of the counties of this State, three intelligent and discreet persons residing therein, one of whom, at least, shall be a person qualified to practice medicine under the provisions of this chapter, if there be such person residing in the county, and the persons so appointed shall constitute a *local board of health* for the county of their residence, and hold their office for the term of two years, and until their successors are appointed, unless sooner removed from office by the State board of health. Vacancies in said local board shall be filled by the State board for the unexpired term upon the nomination of the county court. The said local board of health shall make and establish for their county, or for any district or place therein, such sanitary regulations and rules as they may deem necessary and proper to prevent the outbreak and spread of cholera, small-pox, scarlet fever, diphtheria and other endemic, infectious and contagious diseases; and they, or any of them, may, except in the night time, in the performance of the duties imposed upon them, enter into or upon any house or premises and inspect the same whenever they have reason to believe that such house or premises is in an unclean or infectious condition; and if any house or premises so inspected be found in such condition as aforesaid, said local board shall direct and require the person in charge of, or occupying the same, if of sufficient ability, to cleanse and purify the same according to the sanitary rules and regulations made by said board as aforesaid; and if any such person shall fail or refuse to comply with and obey the said directions and requirements of said board, he shall be guilty of a misdemeanor, and fined not less than ten nor more than one hundred dollars. Such local board shall also enforce within their county all the lawful rules and regulations of the State board of health applicable to such county.

It shall be the duty of every practicing physician in any county in which there is such local board of health, to report to said board promptly all or any diseases of the above named character under treatment by him; and said local board shall once, at least, in every three months, report to the State board of health the character of all such infectious, contagious, endemic or epidemic diseases, the number of persons reported as affected with either of said diseases, naming the same; the action taken by such local board to arrest the progress of every such disease, and the visible effects (if any) of such action. Where any city, town or village has a board of health of its own, the jurisdiction of the local board so appointed shall not extend thereto, but such city, town or village board of health shall be auxiliary to and act in harmony with the State board of health.

7. The local board of health of any county may declare quarantine therein, or in any particular district or place therein, against the introduction of any contagious or infectious disease prevailing in any other State, county or place, and of any and all persons and things likely to spread such contagion and infection. As soon as such quarantine is established, such local board shall, in writing, inform the members of the State Board of Health residing in their congressional district thereof, whose duty it shall be to ascertain as soon as practicable the necessity thereof, if any exist; and if they find that no such necessity exists, they shall declare the same raised. The said local board shall have power and authority to enforce such quarantine until the same is raised as aforesaid, or by themselves; and may confine any such infected person, or any person likely to spread such contagion or infection, to the house or premises in which he or she resides, or if such person have no residence in the county, at a place to be provided by them for the purpose, and if it shall become necessary to do so, they shall summon a sufficient guard for the enforcement of their orders in the premises.

Every person who shall fail or refuse to comply with any order made by such board under this section, and every person summoned as such guard who shall, without a lawful excuse, fail or refuse to obey the orders and directions of such board in enforcing said quarantine, shall be guilty of a misdemeanor, and for each offense be fined not less than twenty five nor more than one hundred dollars. In cases of emergency or of actual necessity, and when the court or corporate authority are from any cause unable to meet or to provide for the emergency or the necessity of the case, all actual expenditures necessary for local and county sanitation as provided for in this section, shall be certified by the local board of health to the county court, and the whole or as much thereof as the said court may deem right and proper shall be paid out of the county treasury. The board of health of any city, town or village shall have the same powers and perform the same duties herein conferred upon and required of the local board of health in their county. The State Board of Health may also, under the provisions of this section, declare quarantine in any part of the State, and all the provisions of this section shall be applicable to the quarantine so declared.

8. The State Board of Health, its agents and employees, and the local boards of health, in the absence of the State board, its agents and employees, when they have reason to believe that any steamboat or other water craft navigating the Ohio river or its tributaries in this State, or any other of the waters of the State, or bordering thereon, is infected with any contagious or infectious disease, may prevent the landing of such boat or craft at any point in this State. They may also, if they have reason to believe that any railroad train, coach or other vehicle, passing on or along any railroad in this State, contains any person or thing infected with contagious matter, detain at any station or point on such railroad, where it can be done with safety, such train, coach or vehicle, for a time sufficient to examine the same, and if found to be so infected, for a time sufficient to disinfect and purify the same; and if the conductor or person in charge of such train, coach or vehicle, shall wilfully fail or refuse to stop the said train, coach or vehicle for the time aforesaid, he shall be guilty of a misdemeanor and punished as prescribed in section five (5) of this chapter. Nothing herein contained shall be so construed as to impair or affect the powers and duties of the county court of any county under the provisions of sections twenty-five (25) and twenty-six (26) of chapter thirty-nine of the code of West Virginia, as amended and re-enacted by chapter five of the acts of one thousand eight hundred and eighty-one.

9. The following persons, and no others, shall hereafter be permitted to practice medicine in this State, viz:

First. All persons who are graduates of a reputable medical college in the school of medicine to which the person desiring to practice belongs. Every such person shall, if he have not already done so and obtained the certificate hereinafter mentioned, present his diploma to the State board of health, or to the two members thereof in his congressional district; and if the same is found to be genuine, and was issued by such medical college as is hereinbefore mentioned, and the person presenting the same be the graduate named therein, the said board or said two members thereof (as the case may be) shall issue and deliver to him a certificate to that effect; and such diploma and certificate shall entitle the person named in such diploma to practice medicine in all its departments in this State.

Second. All persons who have practiced medicine in this State, continuously, for the period of ten (10) years prior to the eighth day of March, one thousand eight hundred and eighty-one. Every such person shall make and file with the two members of the State board of health in the congressional district where he resides, or, if he reside out of the State, in the district nearest his residence, an affidavit of the number of years he has continuously practiced in this State, and if the number of years therein stated be ten (10) or more, the said board or said two members thereof shall, unless they ascertain such affidavit to be false, give him a certificate to that fact, authorizing him to practice medicine in all its departments in this State.

Third. A person who is not such graduate and who has not so practiced in this State for a period of ten (10) years, desiring to practice medicine in this State, shall, if he have not already done so, present himself before the State board of health, or before the said two members thereof in the congressional district in which he resides, or, if he reside out of this State, to the said two members of the State board of health in the congressional district nearest his place of residence, who, together with a member of the local board of health who is a physician (if there be such member of the local board) of the county in which such examination is held, shall examine him as herein provided; and if upon full examination they find him qualified to practice medicine in all its departments, they, or a majority of them, shall grant him a certificate to that effect, and thereafter he shall have the right to practice medicine in this State to the same extent as if he had the diploma and certificate hereinbefore mentioned.

The members of the State board of health in each congressional district shall, by publication in some newspaper printed in the county in which their meeting is to be held, or, if no such paper is printed therein, in some newspaper in general circulation in such district, give at least twenty-one days' notice of the time and place at which they will meet for the examination of applicants for permission to practice medicine, which notice shall be published at least once in each week for three (3) successive weeks before the day of such meeting. But this section does not apply to a physician or surgeon who is called from another State to treat a particular case or to perform a particular surgical operation in this State, and who does not otherwise practice in this State.

10. Every person holding any such certificate as is hereinbefore provided for shall have the same recorded in the office of the secretary of the State board of health, in a book kept by him for that purpose, and the secretary shall endorse on said certificate the fact of such recordation, and deliver the same to the person named therein, or to his order.

11. Every person, on presenting himself for examination as hereinbefore provided, shall pay to the State board of health, or to the members thereof by whom he is examined, a fee of ten (10) dollars, which shall not be returned if a certificate be refused him. But he may again, at any time within one year after such refusal, present himself for examination as aforesaid, without the payment of an additional fee, and if a certificate be again refused him, he may as often as he see fit thereafter, on the payment of a fee of ten (10) dollars, be examined as herein provided until he obtain such certificate.

12. Examinations may be in whole or in part in writing, and shall be of an elementary and practical character, and shall embrace the general subjects of anatomy, physiology, chemistry, materia medica, pathological anatomy, surgery and obstetrics, but sufficiently strict to test the qualifications of the candidate as a practitioner of medicine, surgery and obstetrics. The provisions of this chapter shall not apply to females practicing midwifery.

13. Any person shall be regarded as practicing medicine within the meaning of this chapter who shall profess publicly to be a physician, and to prescribe for the sick, or who shall append to his name the letters "M. D." This act shall also apply to apothecaries and pharmacists who prescribe for the sick. This act shall not apply to commissioned officers of the United States army and navy and marine hospital service.

14. Any itinerant physician desiring to practice medicine in this state shall, before doing so, pay to the sheriff of every county in which he desires to practice, a special tax of fifty dollars for each month and fraction of a month he shall so practice in such county, and take his receipt in duplicate therefor. He shall present said receipts to the clerk of the county court of such county, who shall file and preserve one of them in his office, and endorse on the other the words: "A duplicate of this receipt has been filed in my office," and sign the same and deliver it to the person presenting the same; and if any such physician shall practice, or attempt to practice medicine in any such county without having paid such tax and filed such receipt with the clerk of the county court and obtained his endorsement on the other as aforesaid, or if he shall so practice or attempt to practice for a longer period than that for which he has paid such tax as aforesaid, he shall be guilty of a misdemeanor and be fined not less than one hundred nor more than five hundred dollars. Any person who shall travel from place to place and by writing, or printing or otherwise, publicly profess to cure or treat diseases, injuries or deformities, shall be held and deemed to be an itinerant physician and subject to the taxes, fines and penalties prescribed in this section.

15. If any person shall practice, or attempt to practice medicine, surgery or obstetrics in this state without having complied with the provision of section nine (9) of this chapter, except as therein provided, he shall be guilty of a misdemeanor and fined for every such offense not less than fifty nor more than five hundred dollars, or imprisoned in the county jail

not less than one month nor more than twelve months, or to be punished by both such fine and imprisonment at the discretion of the court. And if any person shall file or attempt to file as his own, the diploma or certificate of another, or shall file or attempt to file a false or forged affidavit of his identity, or shall willfully swear falsely to any question which may be propounded to him on his examination, as herein provided for, or to any affidavit herein required to be made or filed by him, he shall, upon conviction thereof, be confined in the penitentiary not less than one nor more than three years, or imprisoned in the county jail not less than six nor more than twelve months, and fined not less than one hundred nor more than five hundred dollars, at the discretion of the court.

16. The secretary of the State board of health shall receive a salary to be fixed by the board, but not to exceed the sum of five hundred dollars; he shall also receive his traveling and other necessary expenses incurred in the performance of his official duties within the limits of this State, not to exceed, however, one hundred dollars. The other members of said board shall each receive four dollars per day for each day actually and necessarily employed by them in the discharge of the duties of their office. But the whole of the expenses so incurred, the salary of the secretary and the *per diem* of the members of the board, shall not exceed the sum of fifteen hundred dollars in any one year. The State board shall audit all bills made out in due form and verified by the member rendering the services, or incurring the expense, or traveling in the performance of the duties of his office. Such bills, when approved by the Governor, shall be paid out of the State treasury.

17. All moneys received by the State board of health, or any of its members, in payment of fees for examination, as well as the special taxes received by the sheriff under the provisions of section fourteen (14) of this chapter, shall be paid into the State treasury within one month after the same are received. And it shall be the duty of the secretary of the State board of health on the first days of January and July in each year, or within five days thereafter, to certify to the auditor all such moneys received by said board or any member thereof, during the preceding six months. It shall also be the duty of the clerk of every county court on the same days in each year, or within five days thereafter, to certify to the auditor all moneys received by the sheriff under this chapter shown by the receipts filed in his office, as required by section fourteen (14) of this chapter. And any such secretary or clerk who shall fail to comply with the provisions of this section, shall be guilty of a misdemeanor and fined for each offense not less than fifty nor more than two hundred dollars. And if any member of the State board of health shall fail to account for and pay into the treasury as herein required, any moneys received by him as aforesaid, he shall be guilty of a misdemeanor and fined double the amount of the moneys so received, and which he has failed to pay as aforesaid.

18. The secretary of the State board of health, or any member thereof, shall have power to administer oaths and take and certify affidavits in any matter or thing pertaining to the business of the board, or of any of the members thereof.

19. If any person knowingly sell any diseased, corrupted or unwholesome provisions whether food or drink, without making the same known to the buyer, he shall be confined jail not more than six months, and fined not exceeding one hundred dollars.

20. If any person fraudulently adulterate, for the purpose of sale, anything intended for food or drink, or if he knowingly sell or barter anything intended for food or drink, which is not what it is represented to be, or what it is sold for, he shall be confined in jail not more than one year, and fined not exceeding five hundred dollars; and the adulterated or other articles shall be forfeited and destroyed.

21. All acts and parts of acts coming within the purview of this act, and inconsistent therewith, are hereby repealed.

Approved March 25, 1882, and in force from that date.

The State of Wisconsin extends from 42° 31' to 46° 58' north latitude, and from 87° to 92° 53' west longitude, and is bounded on the north by Lake Superior, on the northeast by the Northern Peninsula of Michigan, on the east by Green Bay and Lake Michigan, on the south by Illinois, and on the west by Iowa and Minnesota. It comprises an area of 56,040 square miles, or 35,865,600 acres. The surface is generally an elevated table land, with high bluffs along the rivers and lakes, caused by the denuding action of the streams, which have cut their beds deep into the alluvial yielding soil, and elsewhere gently undulating, diversified with lakes, prairies and woodlands. The principal rivers of Wisconsin are, the Mississippi, which flows along the southwestern border; the Wisconsin, Chippewa, St. Croix, Montreal, Menomonee, Peshtigo, Fox, Green, Rock, etc. The climate is cool and pleasant, the mean annual temperature being 45.40, that of the summer 69.11, and of the winter 20.84. The average annual rainfall is about 31 inches. The northern portion of the State is well wooded, and in Central and

MILWAUKEE SANITARIUM

FOR
NERVOUS DISEASES.

The Sanitarium is beautifully located in the country, three miles from the City of Milwaukee. It is within a few minutes' walk of the Chicago, Milwaukee & St. Paul Depot, but is in a quiet and retired spot, where patients have the freedom of a large park without observation or intrusion.

The institution is designed for the treatment of nervous disorders, including mild cases of insanity.

The buildings are new and were constructed for the special purpose of a Sanitarium. They are heated by steam and lighted by electricity, and the entire sanitary arrangements of the institution are the best.

Each patient is provided with a separate room, and skilled nurses are always in attendance.

It has been the constant endeavor to make the Sanitarium assimilate, as nearly as possible, to a home, with few of the characteristics of an institution, and with every diversion that can contribute to the entertainment and improvement of the patients.

Terms reasonable.

MEDICAL LAWS OF WISCONSIN.

AN ACT TO PREVENT QUACKS FROM DECEIVING THE PEOPLE BY ASSUMING A PROFESSIONAL TITLE.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

SECTION 1. No person practicing physic or surgery, or both, who is prohibited by section one thousand one hundred and thirty-six of the Revised Statutes of Wisconsin, 1878, from testifying in a professional capacity, as a physician or surgeon, in any case, shall assume the title of doctor, physician or surgeon, by means of any abbreviation, or by the use of any word or words, letters of the alphabet of the English or any other language, or any device of whatsoever kind, printed, written or painted, or exhibited in any advertisement, circular, hand-bill, letter or other instrument, nor on any card, sign, door or place whatsoever. Any person violating any provision of this act shall be deemed guilty of a misdemeanor, and shall, on conviction thereof, be punished by a fine of not less than twenty-five dollars, nor more than one hundred dollars, or by imprisonment in the county jail not less than ten days, nor more than sixty days, for each offense.

2. Upon complaint made, in writing, under oath, before any magistrate or justice of the peace, charging the commission of an offense against the provisions of this act in his county, it shall be the duty of the district attorney to prosecute the offender, and in all such prosecutions the burden of proof shall be upon the defendant to establish his right to use such title, under the provisions of this act.

3. Any person prohibited by section one of this act from assuming the title of doctor, physician or surgeon, who shall practice, or pretend to practice, physic or surgery, or both, shall not be exempted from any, but shall be liable to all, of the legal penalties and liabilities for malpractice; and ignorance shall be no excuse for failing to perform, or for negligently or unskillfully performing, or attempting to perform, any of the duties required by law of practicing physicians or surgeons.

4. Every person pretending to practice physic or surgery, or both, shall, upon demand of any person exhibit all diplomas or licenses that he may have to practice physic or surgery, or both; and if such person, upon demand, shall refuse to exhibit such diplomas or licenses, any suit instigated against him under this chapter shall not be considered malicious.

5. This act shall take effect from and after its passage and publication.

Approved March 30, 1881.

Section 1436 of the Revised Statutes of Wisconsin, referred to in the above law, reads as follows:

1436. No person practicing physic or surgery, or both, shall have the right to collect in any action, in any court, fees or compensation for the performance of any medical or surgical service, or to testify in a professional capacity as a physician or surgeon in any case, unless he shall have received a diploma from some incorporated medical society or college, or shall be a member of the State or some county medical society legally organized in this State.

Medical societies are empowered to issue diplomas by the following:

1425. [Revised Statutes.] The censors of each medical society shall carefully and impartially examine all medical students who shall present themselves as candidates for a diploma and membership of such society, and report their opinion in writing to the president; and thereupon the society may grant diplomas to the persons so examined, under the hand of the president and the seal of the society, which diploma shall constitute them members of such society; but no person shall be so examined and no diploma shall be issued to any person unless he shall have arrived at the age of twenty-one years, have a good English education, have studied medicine at least three years with some respectable practitioner, and shall produce satisfactory evidence of a good moral character. Every person receiving a diploma from any such medical society shall pay therefor ten dollars to the treasurer thereof.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

Wyoming Territory extends from 41° to 45° north latitude and from 104° to 111° west longitude, and is bounded on the north by Montana, on the south by Colorado and Utah, on the east by Dakota and Nebraska, and on the west by Montana, Idaho and Utah. It comprises an area of 97,980 square miles, or 62,-645,120 acres. The surface is broken by mountain ranges, deep river canyons and buttes or flat-topped hills, and irrigation is needed in a large part of the country to render the soil productive. Stock-raising and wool-growing are carried on extensively. The principal rivers are Big Horn, Green, Laramie, Little Powder, North Fork of Cheyenne, North Fork of Platte, Upper Yellowstone and Wind. Wyoming is rich in mineral treasures; gold and silver are plentiful, there are vast beds of iron ore, coal and gypsum, and salt, sulphur and copper are found.

The following table shows increase in population for 10 years:

1870..	9,118		1880.....	20,789
--------------	-------	--	-----------	--------

The census of manufactures for 1880 shows the number of establishments in operation at that time to have been 57; capital invested, \$364,673; number of hands employed, 391; total wages paid during the year, \$187,798; value of materials, \$601,214; value of products, \$898,494.

The total number of deaths from consumption during 1880 was 5, which was at the rate of .20 per 1,000 of population, or 26.45 per 1,000 of total deaths.

MEDICAL LAWS OF WYOMING TERRITORY.

AN ACT TO PREVENT THE PRACTICE OF MEDICINE, SURGERY OR OBSTETRICS BY UNQUALIFIED PERSONS
Be it enacted by the Council and House of Representatives of the Territory of Wyoming:

- SECTION 1. No person shall practice medicine, surgery or obstetrics in this Territory, who has not received a medical education and a diploma from some regularly chartered medical school, said school to have a *bona fide* existence at the time when said diploma was granted.
2. Every physician, surgeon or obstetrician in this Territory shall file for record with the registrar of deeds of the county in which he or she is about to practice his or her profession, or where he or she now practices it, a copy of his or her diploma, at the same time exhibiting the original, or a certificate from the dean of the medical school of which he or she is a graduate, certifying to his or her graduation.
3. Every physician, surgeon or obstetrician, when filing a copy of his or her diploma or certificate of graduation, as required by section two of this act, shall be identified as the person named in the papers about to be filed, by the affidavit of two citizens of the county, or by his or her affidavit, taken before a notary public or commissioner of deeds, for this Territory, which affidavit shall be filed in the office of the registrar of deeds.
4. Any person practicing medicine, surgery or obstetrics in this Territory without complying with sections one, two and three of this act, shall be guilty of a misdemeanor, and upon conviction, shall be punished by a fine of not less than fifty dollars, nor more than five hundred dollars, or by imprisonment in the county jail for a period of not less than thirty days, nor more than six months, or by both fine and imprisonment for each and every offense. And any person filing or attempting to file as his or her own, the diploma or certificate of graduation of another, or a forged affidavit of indentification, shall be guilty of a felony, and, upon conviction, shall be subject to such fine and imprisonment in the penitentiary as may be fixed by the court for said offense.
5. It shall be the duty of the police, sheriff or constable to arrest all persons practicing medicine, surgery or obstetrics in this Territory, who have not complied with the provisions of this act, and the officer making the arrest shall be entitled to one-half of the fine collected.
6. No portion of this act shall apply to any person who, in an emergency, may prescribe or give advice in medicine, surgery or obstetrics, in a section of country where no physician, surgeon or obstetrician resides, or where no physician, surgeon or obstetrician resides

within convenient distance, nor to persons prescribing in their own families; nor shall the provisions of this act apply to persons claiming to practice medicine, surgery or obstetrics in any section of the Territory wherein no physician or surgeon, having a diploma or certificate of graduation, as aforesaid, now resides or shall hereafter reside.

7. Upon the trial of any person charged with a violation of any of the provisions of the act, it shall be sufficient for the prosecution to show that the defendant has practiced medicine, surgery or obstetrics within the county where the indictment is found, at any time since the passage of this act, and the defendant shall not, after such proof, be entitled to an acquittal until he or she shows by the testimony of some competent witness, upon oath, that the defendant has received a medical education and a genuine diploma from some regularly chartered medical school: *Provided*, That the defendant may show such facts by depositions taken in the same manner as depositions are taken in civil cases.

8. That an act entitled "An act to protect the citizens of Wyoming Territory from empiricism, and to elevate the standing of the medical profession," be and the same is hereby repealed.

9. This act shall take effect and be in force from and after its passage.

Dr. J. H. Finfrock, of Laramie City, writes:

I believe our law is efficient, although it has never been tested in our higher courts. Several arrests have been made under it, but the parties either left before trial or ceased to practice. As no attempt has ever been made to repeal the law, I conclude it is favorably received by all classes. Physicians are exempt from jury duty and receive ten dollars per day when testifying before a coroner's jury, and thirty dollars for making a post-mortem examination.

Practical Individual Instruction, Clinical and Demonstrative, to Physicians only, during the entire year.

The Philadelphia Polyclinic offers ample opportunities for observation and study, alike to Experienced Practitioners, who desire to refresh their general knowledge, or to take up Special Lines of Practice, and to recent Graduates, who desire to perfect themselves in the Science and Art of Medicine—in its Laboratories, Dispensary Clinics, Hospital Wards, and Special Lecture Courses.

Classes are limited in number so that instruction may be personal.

In addition to the facilities of the College Clinics, the Professors utilize, for the purposes of instruction, their services in the following large general and special Hospitals:

Philadelphia, Pennsylvania, Will's Eye, Episcopal, Howard, Children's, Orthopædic and Infirmary for Nervous Diseases, Jewish, St. Mary's, St. Christopher's, St. Agnes'.

Special Courses, Practical and Didactic, in Ophthalmology, Massage and Dietetics, have recently been established in connection with the appropriate Chairs. The course in Massage and the Diet Kitchen are open to Nurses and others.

Tickets good for daily clinics for six weeks from date of issue, or for one clinic weekly for three months.

Fee for any one branch, \$15.00 General ticket for thirteen clinical branches, \$100.00.

Summer Course, July 1st to September 15th: General ticket, \$60.00. One branch, \$10.00. One month, \$25.00.

Announcement and further particulars may be obtained from

LEWIS W. STEINBACH, M. D., Secretary,
Northwest Cor. Broad and Lombard Sts., PHILADELPHIA.

JAMES A. KYNER, Ph. G., Superintendent, at the College Building.

NEW BUILDING. The Trustees of the Polyclinic have recently bought a large property, 96 x 143 feet, on Lombard Street, west of Eighteenth Street, about four blocks from the present College Building. Upon this it is proposed to erect during 1889 a commodious building for the accommodation of the Dispensaries and Hospital. Additional room for the many cases requiring Hospital Treatment had become imperative, and the trustees were fortunate in securing an admirable site for the new building. It is in a section of Philadelphia which is densely settled, and at the same time easy of access from the large railway stations, medical colleges, and other public institutions. The corner stone was laid November 2d.

CHAS. E. QUIMBY, M. D., Assistant Professor of Practice of Medicine.

J. CLIFTON EDGAR, M. D., Adjunct Professor of Obstetrics.

THE PRELIMINARY SESSION will begin on Wednesday, September 25th, 1889, and end October 1st, 1889. It will be conducted on the same plan as the Regular Winter Session.

THE REGULAR WINTER SESSION will begin October 2d, 1889, and end about March, 1890. The plan of instruction consists of Didactic and Clinical Lectures, recitations and laboratory work in all subjects in which it is practicable.

LABORATORIES AND SECTION TEACHING.—The complete remodeling of the College building, and the addition of the new "Loomis Laboratory," will afford greatly increased laboratory accommodations in the departments of Biology, Pathology, Physiology, Chemistry and Physics. A new amphitheatre and a new lecture room have been provided as well as adequate facilities for Section teaching, in which the material from the College Dispensary will be utilized.

Two to five Didactic Lectures and two or more Clinical Lectures will be given each day by members of the Faculty. In addition to the ordinary clinics, *special clinical instruction*, WITHOUT ADDITIONAL EXPENSE, will be given to the candidates for graduation during the latter part of the Regular Session. For this purpose the candidates will be divided into sections of twenty-five members each. All who desire to avail themselves of this valuable privilege must give in their names to the Dean during the first week. At these special clinics students will have excellent opportunities to make and verify diagnoses, and watch the effects of treatment. They will be held in the Wards of the Hospitals and at the Public and College Dispensaries.

Each of the seven Professors of the Regular Faculty, or his assistant, will conduct a recitation on his subject one evening each week. Students are thus enabled to make up for lost lectures, and prepare themselves properly for their final examinations without additional expense.

THE SPRING SESSION will begin about March 26th, and end the last week in May. The daily Clinics and Special Practical Courses will be the same as in the Winter Session, and there will be Lectures on Special Subjects by Members of the Faculty.

It is supplementary to the Regular Winter Session. Nine months of instruction are thus secured to all students of the University who desire a thorough course.

FEES.

For Course of Lectures	\$140 00
Matriculation	5 00
Demonstrator's Fee, including material for dissection.	10 00
Final Examination Fee	30 00

For further particulars and circulars, address the Dean,

Prof. CHAS. INSLEE PARDEE, M. D.

This School was founded by members of the Post-Graduate Faculty of the University of the City of New York, and was the first Institution in the United States to present a systematic system of clinical instruction for graduates in medicine. All the lectures are clinical. It is a place of instruction in which the practitioner, by actually handling the cases under the guidance of the Professors and Instructors, may learn the use of instruments for examination and treatment, and observe the effects of remedies. Its facilities are unrivalled. Each hospital to which the teachers are attached forms a part of the field of instruction. The general schedule is so arranged that there is no conflict in the hours of attendance of the Professors. The clinics begin at 9 A. M., and continue until 9 P. M. each day. The Hospital of the School contains eighty-five beds—a new building having been lately added to the premises already occupied. This Hospital has been in active operation for five years, and furnishes most important clinical cases for study. It is open nine months of the year. The babies' wards are open the whole year. ☞ Sessions continue throughout the year. ☞ Physicians may join the classes at any time.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

YELLOW FEVER. Its Successful Treatment. — SEE PAGE 745. —

University of Pennsylvania,

DEPARTMENT OF MEDICINE,

Thirty-Sixth Street and Woodland Avenue,

PHILADELPHIA.

This, the oldest School of Medicine in the United States, will begin its one hundred and twenty-fifth annual session on the first day of October, 1890, and continue until May 1st. It offers a three years' and four years' course, with a graded curriculum, in which practical instruction in laboratories and at the bedside is a prominent feature.

Chemistry, Histology, Pharmacy, Physiology and Pathology are thoroughly taught in the former, as well as by lectures, and the student receives instruction in Medicine, including Physical Diagnosis, Surgery, Gynæcology, and other specialties at the bed side, as well as by systematic and clinical lectures. The exercises of the fourth year, which is voluntary, are mainly practical.

Matriculates who do not possess a Degree in Arts or Sciences, or Diplomas from reputable Academies in which the required subjects are taught, must pass a preliminary examination in English and natural philosophy.

PROFESSORS.

WILLIAM PEPPER, M. D., LL. D., Provost.

JOSEPH LEIDY, M. D., LL. D., Anatomy.

D. HAYES AGNEW, M. D., LL. D., Honorary Professor of Clinical Surgery.

 ARTHUR VAN HARLINGEN, M. D.,
 Clinical Lecturer on Dermatology.
 JAMES C. WILSON, M. D.,
 Clinical Lecturer on Renal Diseases.

Demonstrators: A corps of eleven Demonstrators and their assistants.

Three regular courses of lectures by the Faculty embrace the whole medical curriculum. This course is supplemented by the lectures on special topics, and demonstrations of the Spring and Fall terms respectively.

The Faculty invite the attention of the medical profession and students to their thorough system of practical Laboratory work. To each department of the regular curriculum there is appended a Laboratory Course, carried on in large and thoroughly equipped apartments in the College, by specially appointed Demonstrators, under the immediate direction of the Professor. In this way each candidate for the degree of M. D. is immediately and personally taught in Obstetrics and Gynæcology, Physical Diagnosis, Laryngology, Ophthalmology, Medical Chemistry, Pharmacy, Materia Medica and Experimental Therapeutics, Physiology, Histology and Experimental Physiology, and Minor Surgery, Bandaging, Operations on the Cadaver, etc., and in the Department of Medicine, "clinical conferences," and practical lessons in Physical Diagnosis.

This course of Instruction is *free of charge*, but *obligatory upon* candidates for the Degree, except those who have had such instruction and those who are graduates of other Colleges.

THE SPRING COURSE of Lectures begins early in April, and ends in June. There is no additional charge for this Course to matriculates of the College, except a registration fee of five dollars; non-matriculates pay forty dollars, *thirty-five dollars of which, however, are credited on the amount of fees paid for the ensuing Winter Course.*

Desirable opportunities are afforded to graduates in Medicine for pursuing special courses, and for instruction in the recognized Specialties.

CLINICAL INSTRUCTION is given *daily* at the HOSPITAL OF THE JEFFERSON MEDICAL COLLEGE throughout the year by Members of the Faculty, and by the Hospital Staff, and at the Pennsylvania and other Hospitals several times a week.

With the session of 1890-91, a graded curriculum and three annual winter sessions will be required. Bedside instruction in Medicine, Gynæcology, Surgery and Obstetrics is a part of the third year course, and is without extra fee.

The Annual Announcement, giving full particulars, will be sent on application to

J. W. HOLLAND, M. D., Dean.

Send Patients needing Special Diet, Massage or Inunction to **The Jackson Sanatorium,** DANSVILLE, NEW YORK. See Page 11.

Hahnemann Medical College and Hospital OF PHILADELPHIA.

LOCATED ON BROAD STREET, ABOVE RACE.

ORGANIZED IN 1848. ·· 1,798 GRADUATES.

The advantages of this institution are as follows:

1. A new and commodious building, with every modern convenience, centrally located, and convenient to all the City Hospitals.

2. From the accumulations of over a quarter of a century, its teaching facilities have acquired a most complete character; its chemical and philosophical apparatus is ample, while its anatomical museum is unsurpassed, containing nearly five thousand specimens.

3. A medical library of nearly six thousand volumes, to which students have free access.

4. Unlimited clinical advantages, as offered by the Hahnemann Hospital, adjoining the College, with the various free clinics of the several Hospitals of the City.

5. Opportunity for the practical study, not only

of Anatomy, but of Chemistry, Surgery, Obstetrics, Microscopy and Gynecology. In the Practical Surgical Department each student is thoroughly drilled in the applications of the various surgical dressings, and in the performance of the operations on the cadaver; in the Obstetrical Department he is exercised in the touch, the use of instruments, and attends cases of confinement, while in Gynecology every graduate is practised in vaginal examinations, the use of the speculum, uterine sound, etc.

6. A corps of twenty-three experienced Professors, Lecturers and Demonstrators.

7. A graded course of three years: thus permitting of such a distribution of subjects as to greatly facilitate the progress of the student.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

J. WEBB FOSTER, Ph. G., Lecturer on Practical Pharmacy.
J. B. SCHWATKA, M. D., Demonstrator of Anatomy.
E. A. SCHUTZ, M. D., Prosecutor.

The Faculty owns and controls the MARYLAND GENERAL HOSPITAL, a commodious building, with a special Lying-in department and an Eye and Ear department, both of which are immediately adjacent to the "MARYLAND GENERAL HOSPITAL;" a Gynecological department, and the BALTIMORE MEDICAL COLLEGE DISPENSARY.

The **Clinical Facilities** are second to none.

The **Regular Winter Course** of lectures begins October 1st, and ends the middle of April.

The **Preliminary Fall Course** begins September 1st, and ends October 1st, and is given gratis to all students.

A **Graded Course** covering three years is recommended, but optional to students.

The **Gynecological and Obstetric Clinics** are large and varied. All students witness, examine and assist in cases of actual labor, are instructed practically in application of forceps, in the art of turning, auscultation, foetal heart, etc.

Clinics on all forms of disease are held daily, and the didactic lectures are thorough in all details. Laboratory work is required of all.

A **Gold Medal and Five College Prizes** are awarded to students in order of respective merit. In order to graduate, candidates must be of good moral character, twenty-one years of age, have attended two full courses of lectures, the last of which must have been in this college, have paid all fees due the college, and passed a satisfactory examination before the Faculty.

Fees for Winter Term:

Fee for Full Course of Lectures.....	\$100 00
Matriculation Fee	5 00
Total Fees.....	\$105 00

In accordance with the custom of other Medical Schools, worthy young men of limited means are admitted on **Scholarship Fee**.

Scholarship Fee for full course of lectures.....	\$50 00
Matriculation Fee.....	5 00
Total Fee for Scholarship.....	\$55 00

Diploma Fee is \$30.00 in all cases.

The Jackson Sanatorium, DANVILLE, NEW YORK, is the LEADING HEALTH INSTITUTE of the Country. See p. 11.

.....THE.....

Hahnemann Medical College and Hospital

OF CHICAGO, ILLINOIS.

Incorporated, 1855.

Organized, 1859.

The Largest Homœopathic College in the World.

The Annual Course of Lectures commences the Third Tuesday of September each year.

THE POLICY OF THE COLLEGE.

The policy of this institution is to make no promise for hospital or college tuition, special clinics, or any means for observation and study, that is not literally and righteously kept.

THE COLLEGE CURRICULUM.

The Course of Study in this College and Hospital has been so arranged as to include the essential and necessary branches of a sound medical education. There are no pretensions to an extraordinary provision for instruction either in the number of branches taught, the array of teachers, the multiplication of specialties that are recognized, or in the number of fractional courses that are required to be taken before the student is eligible for graduation.

The plan of instruction is, therefore, plain and simple. The whole time is spent upon the practical branches. The course consists in a sensible and available admixture of didactic and clinical teaching. Great care is taken that theory is not substituted for practice, and that the students are not "talked to death," instead of being trained in objective, bed-side work.

THE DAILY HOSPITAL CLINICS.

The Clinical Professors give daily clinics, not only during the college session, but throughout the whole year. The order of the clinics is as follows:

Monday, NERVOUS DISEASES, Prof. Fellows.

" P. M., SURGERY, Prof. Shears.

Tuesday, SKIN AND VENERAL, Prof. Hoyne.

" P. M., EYE AND EAR, Prof. Watry.

Wednesday, SURGICAL DISEASES OF WOMEN, Prof. Ludlam.

Thursday, GENERAL MEDICAL DISEASES, Prof. Hawkes.

" P. M., EYE AND EAR, Prof. Watry.

Friday, THE MEDICAL DISEASES OF WOMEN, Prof. Bailey.

" P. M., DISEASES OF CHILDREN, Prof. Leavitt.

Saturday forenoon, GENERAL MEDICAL DISEASES, Prof. Laning.

On call, OBSTETRICS, Prof. Leavitt.

THE HOSPITAL SUB-CLINICS.

Besides the daily hospital clinics that are open and free to all the students of the College, there is a series of sub-clinics which are reserved for advanced pupils. In these the second and third course students are divided into classes of from eight to twelve. These classes are taken in turn to the wards, and to the sub-clinic rooms for direct and personal drill by the several professors. There are eight of these special clinics.

These sub-clinics are exceedingly popular. The material is abundant and varied, and this kind of teaching is a distinctive feature of this College.

Students and others who desire reliable information regarding this College and Hospital, are requested to write directly to the Registrar,

MEDICAL AND SURGICAL

DOCTOR

HAVE YOU TRIED A

"Therapeutic Terrestrial Equipoise" (OR MINIATURE EARTH)

IN YOUR PRACTICE?

If not, get one at once, and the results will convince you that it is the most important discovery ever made toward the removal of disease.

This peculiar and subtle force which has been lying hid in past ages, causes a feeling of awe, mixed with amazement, when we behold its powerful "Therapeutical" and "Physiological" actions. Experience, however, has taught that any undesired effects can be removed by the same instrument that produced them.

This Equipoise, which is built upon scientific principles, represents the Earth in form and its control over animal life, and it can remove any form of "functional" disease, and, when a diseased organ can be repaired by functional improvement, even such an "organic lesion" must yield under its action also.

Every disease is caused by some functional derangement brought about by unhealthy fluctuation in either light or darkness, heat or cold, dampness or dryness or electro-planetary perturbations affecting the Earth's magnetism.

By connecting a person with this Miniature Earth and varying the temperatures in the Equipoise and the Electrode attached to the body, an insensible current will be set up at once, the intensity and effects of which will depend upon the difference in the temperatures of the instrument and the Electrode, and the degree of latitude to which the Electrode has been connected in the magnetic meridian, so that physicians need not send their patients North, South, East or West for a change of climate, because all such effects, and even more desirable ones, can be produced by attaching the patient to similar latitudes of this Miniature Earth.

The instrument has been called "Therapeutic" because it is applied to "disease." It is called "Terrestrial" because it is built in the form of and controls animal life, similar to the Earth. It is called "Equipoise" because it acts as a balance between the unhealthy fluctuations in the elements referred to and the magnetism required to sustain life. And it is therefore called a

"THERAPEUTIC TERRESTRIAL EQUIPOISE."

THIS EQUIPOISE, WHICH IS THE INVENTION OF DR. HICKS, IS CONTROLLED BY

THE THERAPEUTIC TERRESTRIAL EQUIPOISE COMPANY,
DETROIT, MICH.

College of Physicians and Surgeons of Chicago.

The Regular Session of this Institution will commence September 24th, 1889, and continue six months.

Graded Course of Instruction covering three Winter Sessions.

FACULTY:

A. REEVES JACKSON, A. M., M. D., Professor of Gynæcology.
 SAMUEL A. MCWILLIAMS, A. M., M. D., Professor of Clinical Medicine, Diseases of the Chest, and Physical Diagnosis.
 DANIEL A. K. STEELE, M. D., Professor of Principles and Practice of Surgery and Clinical Surgery.
 LEONARD ST. JOHN, M. D., C. M., M. R. C. S., Eng., Professor of Demonstrations of Surgery and Surgical Appliances.
 HENRY PALMER, M. D., Professor of Operative Surgery, Clinical Surgery and Surgical Pathology.
 FRANK E. WAXHAM, M. D., Professor of Rhinology and Laryngology.
 JOHN E. HARPER, A. M., M. D., Professor of Diseases of the Eye and Ear, and Clinical Ophthalmology.
 A. W. HARLAN, M. D., D. D. S., Professor of Dental Surgery.
 ALBERT E. HOADLEY, M. D., Professor of Orthopedic Surgery.
 C. C. P. SILVA, M. D., Professor of Diseases of Children and Clinical Medicine.
 OSCAR A. KING, M. D., Professor of Diseases of the Mind and Nervous System.

ROMAINE J. CURTISS, M. D., Professor of General Pathology, Hygiene and Bacteriology.
 WM. E. QUINE, M. D., Corresponding Secretary, Professor of Practice of Medicine and Clinical Medicine.
 J. T. JELKS, M. D., Professor of Surgical Diseases of the Genito-Urinary System.
 HENRY J. REYNOLDS, M. D., Professor of Dermatology.
 CHRISTIAN FENGER, M. D., Professor of Principles of Surgery and Clinical Surgery.
 CHARLES B. GIBSON, M. D., Professor of Inorganic Chemistry.
 JOHN A. BENSON, A. M., M. D., Recording Secretary, Professor of Physiology and Histology.
 H. P. NEWMAN, M. D., Professor of Obstetrics.
 CLARENDON RUTHERFORD, A. M., M. D., C. M., Professor of Descriptive Anatomy.
 CHARLES EDWIN CALDWELL, M. D., Professor of Surgical Anatomy.
 W. C. CALDWELL, M. D., Professor of Materia Medica.
 ROBERT W. JONES, M. D., Professor of Therapeutics.
 W. K. HARRISON, A. B., M. D., and THOS. KELLY, M. D., C. M., M. R. C. S., Eng., Professors of Medical Chemistry.

The College Building is situated on the northwest corner of Harrison and Honore Streets (directly opposite the Cook County Hospital, an institution affording the most abundant facilities for Clinical Instruction), and is one of the most complete and elaborate edifices devoted to medical teaching in this country.

The thirty-first Annual Course of instruction began Tuesday, September 24th, 1889, and will close Tuesday, April 29th, 1890. The course of instruction is graded, students being divided into first, second and third year classes.

Applicants for admission must present diplomas or certificates from recognized colleges, schools of science, academies, high schools, or teachers' certificates of the first or second grade, or sustain a preliminary examination.

The method of instruction is conspicuously practical, and is applied in the wards of Mercy and St. Luke's Hospitals daily at the bedside of the sick, in the college amphitheatres, and in the South Side Dispensary attached to the College, where upwards of fourteen thousand patients are treated annually.

FEES:—Matriculation, \$5 00; Lectures, first and second years, each \$75.00, third year free. Demonstrator, \$10. including material; Laboratory, \$5.00; Breakage (returnable), \$5.00. Hospitals: Mercy, \$6.00 for third year students. St. Luke's, \$5.00 for second year students. Final examination, \$30.00. No extra fees for Private Classes or Microscopical Laboratory.

For further information or announcement, address

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

The Lectures on special subjects, by gentlemen recognized as authorities in their particular departments, will be delivered during the regular session without extra fee.

NEW COLLEGE BUILDING.—Owing to the generosity of Mr. John P. Howard, of Burlington, Vt., a new College Building has been erected, with all modern improvements, capable of seating about four hundred students.

HOSPITAL ADVANTAGES.—The MARY FLETCHER HOSPITAL, with its commodious amphitheatre, is open to Clinical Instruction during the session. The Medical and Surgical Clinics of the College will be held in the amphitheatre attached to the Hospital.

THE PRELIMINARY TERM, consisting of a course of Lectures and Recitations in the various branches of Medicine and Surgery, will begin on the First Thursday of November, each year, and continue until March 1st. Fee, \$30.00.

THE REGULAR WINTER SESSION will commence on the last Thursday of February, 1890, and continue twenty weeks. The course will consist of from five to six Lectures daily, in the various departments of Medicine and Surgery.

FEES FOR THE REGULAR SESSION.

Matriculation Fee, payable each Term.....	\$ 5.00
Fees for full Course of Lectures by all the Professors.	75.00
Perpetual Ticket.....	125.00
Examination Fee, not returnable	25.00

Students who have already attended two full courses of Lectures in other regular schools, are admitted on paying the matriculation fee and \$40. Students who have attended one full course in some regular established Medical School and one full course in this College are admitted to a third course on paying the matriculation fee and \$25. Graduates of this school are admitted without fee. Graduates of other regular schools, and *Theological Students*, are admitted by paying the matriculation fee.

For further particulars and circular, address the Dean,

October 1st, of each year, the regular Fall and Winter Session of the New York College of Dentistry opens. From a survey of the work of the past, the Trustees of the College feel justified in adhering to the established curriculum, the methods of teaching, and the manner of conducting the examinations.

The purpose of the institution is to educate men to practice dental surgery as a *specialty of general surgery*; therefore, the fundamental medical sciences applied to the wants of the specialist, and the theory of operative and of prosthetic dental surgery, are lectured upon during the collegiate session. As no amount of scientific attainments can compensate for lack of skill in practice, the greater part of the student's time is devoted to it.

New York City affords the best clinical advantages in medicine and surgery of any city on this continent. The Trustees, to the end of affording clinical opportunities for instruction to the College classes, established the institution known as the Infirmary of the New York College of Dentistry. Open daily from 9 A. M. to 1 P. M. throughout the year.

There is an annual medical and surgical practice done at the dispensaries and infirmaries (exclusive of hospitals) in New York City of upwards of 300,000 patients. Having such a large number of patients to draw from, this, the only dental infirmary in the city, is taxed to its utmost to do justice to the large number that apply.

Over 15,000 operations are now annually performed in the Infirmary, by the students, under the direction of the surgical staff. Here the *collegiate year student* may practice throughout the year.

The field which the Infirmary offers is unparalleled. The student can, in a comparatively short time, obtain experience which he could not acquire by years of private tuition, or even practice. In addition to the lectures of the Governing Faculty, the Lecturers will give short courses, of from four to eight lectures each, on special subjects, thus developing important subjects to which the professors cannot give the necessary time.

The New York College of Dentistry is empowered by its charter to confer two degrees—that of D. D. S., and that of F. C. D. (Fellow of the College of Dentistry). The Diplomas awarded in testimony of the conference of these degrees bear, in addition to the signatures of the Faculty and officers of the Board of Trustees, the consent to the award, duly attested, of the Regents of the University of the State of New York.

The degree of F. C. D., is an honorary degree, conferred only "on such persons as have made, or shall have made, valuable contributions to the science of dentistry."

At a meeting of the Faculty of this College, held on the 23d of March, 1885, the following resolutions were adopted: Resolved, That hereafter, beginning with the session of 1885-6, a preliminary examination shall be required for admission to the New York College of Dentistry, before matriculation.

Resolved, That a candidate for matriculation, who presents a diploma from a reputable literary institution, or other evidence of literary qualification, shall be admitted without further examination.

Resolved, That hereafter, at the end of each session, an intermediate examination of the junior class will be required before advancement to the senior class.

REQUISITES FOR GRADUATION.

"The candidate for graduation must be twenty-one years of age, and of good moral character."

"Students shall be required to have spent two full years with a preceptor in the study and practice of dentistry (attendance on two Infirmary Courses is considered equivalent to a private preceptorship) inclusive of attendance on two regular sessions of lectures in a recognized Dental College, the last of which shall have been in this institution."

"The candidate for graduation must deposit a specimen of mechanical dentistry in the Museum of the College, made, by himself in the institution; have attended one course of practical anatomy; pass satisfactorily a written and oral examination by the Faculty, and a practical examination before the professor of operative and mechanical dentistry."

"A graduate of medicine is accredited one year of study, inclusive of one course of lectures."

The Faculty Prize, founded in 1870, is awarded to the graduate who passes the best examinations—written, oral, and practical. It consists of a gold medal, valued at \$100. Three other prizes are awarded by the Faculty.

Lamp and Gas Brackets, Adjustable for Fowlers, 38 Madison St., CHICAGO.

THE Medical & Surgical College of the State of New Jersey

Incorporated by Special Act of the Legislature of New Jersey in 1870.

The Only Medical College in the State.

College Building, No. 47 Montgomery St., JERSEY CITY, N. J.

L. D. BROUGHTON, M. D., President.

FACULTY:

G. H. DAY, M. D., Professor of Principles and Practice of Medicine.

JAMES DAVIES, A. M., M. D., Professor of Anatomy and Physiology.

A. B. WHITNEY, M. D., Professor of Obstetrics and Gynecology.

G. E. POTTER, M. D., Professor of Materia Medica and Therapeutics.

L. D. BROUGHTON, M. D., Professor of Institutes of Medicine and Diseases of Women.

CHARLES A. BARNES, M. D., Professor of Diseases of Children.

The SPRING and SUMMER TERM will commence March 1st, and continue till the end of June.

The Faculty selected by the Board of Trustees consists of the most eminent members of the medical profession of New Jersey and New York.

FACULTY:

JOHN HERRING DAVIES, PHAR. D., Professor of Chemistry.

EDWARD P. THWING, M. D., Professor of Nervous Diseases and Psycho-Therapeutics.

MARK A. BROUGHTON, M. D., Professor of Dental Surgery.

MARTIN L. HOLBROOK, M. D., Professor of Hygiene.

HON. R. B. SEYMOUR, Professor of Medical Jurisprudence.

The WINTER TERM commences October 1st, and continues twenty weeks.

Lectures of special departments of Medicine and Surgery will be given during each of the courses, by eminent Professors of those specialties without extra charge.

Instruction is given by Lectures, Recitations, Clinical Teaching, and practical exercises throughout each academic year. Clinics and systematic work in the laboratories of Analytical and Physiological Chemistry, Histology and Pathology. Special instruction, WITHOUT COST, will be given in Bacteriology, Microscopy, Uroscopy and other important specialties. Physicians desirous of taking a Post-Graduate course will here find all facilities.

STUDENTS OF BOTH SEXES ADMITTED.

The Trustees, recognizing the advantage of practical teaching, have located the College in a densely populated locality, where clinical facilities are unsurpassed. Special clinical instruction will be given weekly.

In relation to the various schools or divisions of the Medical profession, the College is strictly independent; at the same time it is liberal in its principles. The text books of all regular, chartered colleges are used in this Institution.

Fees:—Matriculation, \$5; tickets for one course of lectures, \$50; perpetual scholarship, \$100; graduation, \$30; demonstrator's fee, \$10. Matriculation fee, also fee for course of lectures, must be paid at the commencement of the term; and graduation fee must be handed in one month before the time of graduation, together with the "Thesis." Should the student not be successful in passing all the examinations, the graduation fee will be returned.

Good board can be had in close proximity to the College for \$5 per week. The Registrar will be in attendance at the College Building daily from 10 A. M. to 6 P. M. Address all letters to

R. BROUGHTON, Registrar, 47 Montgomery St., Jersey City, N. J.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be increased. SEE PAGE 7.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

Instruments for Electricity IN MEDICINE AND SURGERY.

FLEMMING'S FARADIC BATTERIES, with rapid and slow interrupted Induction Currents.

GALVANIC CELL BATTERIES.—Batteries, combining both the Faradic and Galvanic Currents.

CAUTERY BATTERIES.—Flemming's Universal Batteries, combining Cautery, Galvanism and Induction.

STATIONARY and CABINET OFFICE BATTERIES. All Forms of Electrodes.

For simplicity and novelty of construction, and solid workmanship combined with elegance in appearance, these instruments stand without rivalry; they are used and indorsed by high Medical authority throughout our own and foreign countries, and are officially adopted by our U. S. Government as the most perfect.

ADDRESSED WRAPPERS and ENVELOPES

To Physicians of the United States and Canada.

30 lb. No. 1 Manilla Wrappers, Size 10x10, \$1.00 per 1,000, Wrappers included.

Addressing Envelopes, when furnished, 75 Cents per 1,000.

We have complete Mail Lists of all the Physicians in the United States; all the Wholesale Drug-gists, Medical Colleges, Medical Journals and prominent Advertisers in Medical Journals. It is the only list kept in type, and corrections are made at once.

We can furnish the wrappers or envelopes promptly, either one State or the complete list.

The price is much lower than wrappers can be written for, and the work more accurate.

For those who wish to write their wrappers, we bind the list in books (which are numbered from 1 to 18) of about 5,000 names, at \$1.00 per book. Canada list, \$3.00 per book. Send for circular.

NUTROLACTIS.—When the Milk of a Nursing Mother is scanty, although the breasts are almost entirely dry, this remedy will in the course of two days, or three at the farthest, so increase the quantity that there will be milk enough to completely nourish a vigorous infant. The quality of the milk will be good, and the health and strength of the mother will be improved. SEE PAGE 7.

BELLEVUE HOSPITAL

MEDICAL COLLEGE

CITY OF NEW YORK.

The Regular Session

Begins about the end of September and closes about the end of March. During this session, in addition to the regular didactic lectures, two or three hours are daily allotted to clinical instruction. Attendance upon at least two regular courses of lectures is required for graduation.

The Spring Session

Consists of recitations, clinical lectures and exercises, and didactic lectures on special subjects. This session begins about the end of March and continues until the middle of June. During this session, daily recitations in all the departments are held by a corps of Examiners appointed by the Faculty.

The Carnegie Laboratory

Is open during the collegiate year, for instruction in microscopical examinations of urine, practical demonstrations in medical and surgical pathology, and lessons in normal histology and in pathology, including bacteriology.

For the annual Circular and Catalogue, giving requirements for graduation and other information, address

PROF. AUSTIN FLINT,

Secretary Bellevue Hospital Medical College, Foot of East 26th Street,
